Please Note:

Prospective job candidates are URGED to check with the respective department, dean, or payroll office for a more detailed description of qualifications. DO NOT apply for jobs via CUPE 3912, but directly with the contact person for each job posting. Some departments may accept applications online; others might not. It is our recommendation that you include a COMPLETE CV with every application, even if it is not requested.

Jobs are listed newest-to-oldest and expired job postings are periodically archived.

Part-time Academic Position

Department of Animal Science and Aquaculture

Faculty of Agriculture

Dalhousie University

Halifax, Nova Scotia, Canada B3H 4H6

Posting Date: November 4, 2020

Application Deadline: November 18, 2020

Position

Part-time Academic position teaching online Synchronous labs for course ANSC3006 (Companion Animal Biology) in the 2021 winter semester. The labs for this course are currently scheduled for Mondays (9:35-10:25 & 11:35-12:25).

Department/Location

Haley Institute, Dalhousie Agricultural Campus.

Pay Rate: In accordance with the CUPE Collective Agreement.

Work Assignment

The incumbent will be responsible for developing laboratory sessions in coordination with instructors teaching the lecture portion of the material. Incumbent is responsible for delivering laboratory sessions in an on-line environment, grading laboratory assignments, and setting up and monitoring student discussion groups.

Knowledge of companion animal biology is required; the course emphasizes dogs and cats, but pocket pets, birds, and other species kept as companion animals are included. Familiarity with the Brightspace system to provide information and student assessment is an asset.

Requirements of Position:

Master's degree in Animal Science, Biology or similar discipline, or Bachelor's degree in animal science/biology with at least two years experience with companion animals. At least one year experience teaching in post-secondary education, with excellent oral and written communication skills.

To apply for this position, please submit a Curriculum Vitae and the contact information of three references by the application deadline to:

Donna Jamieson

Department of Animal Science and Aquaculture, Dalhousie University

Email: donna.jamieson@dal.ca

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons, persons with a disability, racially visible persons, women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community. For more information, please visit <https://www.dal.ca/hiringfordiversity>.

Posting Date: October 20, 2020

Application Deadline: November 3, 2020

Position

Part-time Academic position teaching online Synchronous labs for course ANSC4006 (Modern Sheep Farming) in the 2021 winter semester. The labs for this course are currently scheduled for Mondays (11:35-13:25 & 13:35-15:25).

Department/Location

Haley Institute, Dalhousie Agricultural Campus.

Pay Rate: In accordance with the CUPE Collective Agreement.

Work Assignment

The incumbent will be responsible for developing laboratory material to demonstrate practical aspects of sheep production, conducting online synchronous sessions, monitoring discussion groups and grading laboratory assignments. Required knowledge of the lab material on the subject matter is preferred. Familiarity with the Brightspace system is required; experience in teaching in an online environment is an asset.

Requirements of Position:

At least one year experience teaching in post-secondary education, with excellent oral and written communication skills. Knowledge of and experience in livestock behaviour and livestock health.

Must be comfortable working with a variety of animals, ie: sheep, cattle, horses, and overseeing students with limited livestock handling experience.

To apply for this position, please submit a Curriculum Vitae and the contact information of three references by the application deadline to:

Donna Jamieson

Department of Animal Science and Aquaculture, Dalhousie University

Email: donna.jamieson@dal.ca

Dalhousie University is committed to fostering a collegial culture

grounded in diversity and inclusiveness. For more information, please visit <https://www.dal.ca/hiringfordiversity>.

Posting Date: September 16, 2020

Application Deadline: September 30, 2020

Position

Part-time Academic position teaching online Course ANSC2004 (Organic Livestock Production) in the 2021 winter semester.

Department/Location

Haley Institute, Dalhousie Agricultural Campus

Pay Rate: In accordance with the CUPE Collective Agreement.

Work Assignment

ANSC2004 is a distance education course overseen by the Chair of the Department of Animal Science and Aquaculture. The Part-time Academic will be responsible for all aspects of teaching and administering the class, including lectures, test preparation and evaluation.

Requirements of Position

Ph.D preferred in the area of Animal Science. Would consider a MSc. in the area of expertise, with a minimum of two years' experience. Demonstrated teaching experience required in a post-secondary level environment, with experience in organic livestock systems.

Previous experience in supervising students would be an asset.

To apply for this position, please submit a Curriculum Vitae and the contact information of three references by the application deadline to:

Donna Jamieson

Posted by Department of Animal Science and Aquaculture on August 27, 2019 in Job Postings
Part-time Academic Position
Department of Animal Science and Aquaculture

Faculty of Agriculture
Dalhousie University
Halifax, Nova Scotia, Canada B3H 4H6

Posting Date: August 26, 2019
Application Deadline: September 6, 2019

Position

Part-time Academic position teaching labs for course ANSC3001 (Animal Health) in the 2020 winter semester. The labs for this course are currently scheduled for Thursdays (9:35-11:25 & 12:35-14:25) and Fridays (9:35-11:25).

Department/Location

Haley Institute, Dalhousie Agricultural Campus.

Pay Rate: In accordance with the CUPE Collective Agreement.

Work Assignment

The incumbent will be responsible for laboratory setup and preparation of equipment, teaching classroom based lab components, conducting large animal handling labs, including oversight of student safety, and grade laboratory assignments. Required knowledge of the lab material on the subject matter is preferred. Familiarity with the Brightspace system to provide information and student assessment is an asset.

Requirements of Position:

At least one year experience teaching in post-secondary education, with excellent oral and written communication skills. Knowledge of and experience in livestock behaviour and livestock health.

Must be comfortable working with a variety of animals, ie: sheep, cattle, horses, and overseeing students with limited livestock handling experience.

To apply for this position, please submit a Curriculum Vitae and the contact information of three references by the application deadline to:

Donna Jamieson

Department of Animal Science and Aquaculture, Dalhousie University

58 Sipu Road, Truro, N.S., B2N 5E3

Email: donna.jamieson@dal.ca Fax: 902-895-6734

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Part-time Academic Position
Department of Animal Science and Aquaculture
Faculty- Faculty of Agriculture
Dalhousie University
Halifax, Nova Scotia, Canada B3H 4H6

Posting Date: July 24, 2018

Application Deadline: August 7, 2018

Position

Part-time Academic position teaching Course ANSC2003 (Companion Animal Behaviour) in the 2019 Winter semester. The lectures for this course are currently scheduled for Tuesday/Thursday/Friday (13:35-14:25).

Department/Location

Haley Institute, Dalhousie Agricultural Campus.

Pay Rate: In accordance with the CUPE Collective Agreement.

Work Assignment

The incumbent will be responsible for preparing and delivering course material related to Companion Animal Behaviour, to a class of 80-100 students which includes students registered in the Diploma of Veterinary Technology, B.Sc. Agriculture, and B.Sc. Bioveterinary Science. Core concepts to be taught include animal training techniques, ontogeny of behavior, body language, socialization and communication, and fearfulness and aggressive behavior. The emphasis is on dogs and cats, with some horse content. This is a lecture/discussion course with no scheduled laboratory period. The Part-time Academic will be responsible for all aspects of teaching and administering the class, including lectures, test preparation and evaluation. The position reports to the Chair of the Department.

Requirements of Position:

At least one year experience teaching in post-secondary education, with excellent oral and written communication skills. A Ph.D. in animal behaviour or related discipline, or a Master's degree with two years of experience.

If you are interested in the above position, please submit a cover letter, Curriculum Vitae and the contact information of three referees to:

Part-Time Academic Posting - Department of Animal Science and Aquaculture/Faculty of Agriculture

Posted by Department of Animal Science and Aquaculture/Faculty of Agriculture on November 28, 2017 in Job Postings
Posting Date: November 28, 2017

Application Deadline: December 8, 2017

Position:

Part-time Academic position, teaching course NUTR3001 (Applied Animal Nutrition) in the 2018 Winter semester. Lectures for this course are scheduled for Tuesdays and Thursdays, 9:35 a.m. to 10:55 p.m., with Labs scheduled on Monday from 12:05 to 1:55 p.m.

Department Location: Haley Institute, Dalhousie Agricultural Campus

Pay Rate: In accordance with the CUPE Collective Agreement.

Work Assignment:

The incumbent will be responsible for preparing and delivering course material related to ruminant animal nutrition to a class of approximately 30 students registered in the B.Sc Agriculture/Animal Science program. The course includes components of monogastric and ruminant nutrition, and core concepts which apply to both. The incumbent will work closely with the Monogastric Nutrition professor to teach core concepts, and will be responsible for all sections specific to ruminant nutrition. The incumbent will have the assistance of an instructor for laboratory components, but will be responsible for ensuring academic content and integration with lecture material. Course commitment is for the full semester, however actual teaching involvement is expected to be approximately half the lectures and labs for the semester. The incumbent will also be responsible for all aspects of administering the class, including test preparation and evaluation.

Requirements of Position:

PhD in ruminant nutrition or related ruminant animal specialty, with experience teaching in post-secondary education. Individuals with a Master's degree will be considered, but would be expected to have additional industry or teaching experience.

If you are interested in the above position, please apply in writing by the application deadline to:

Donna Jamieson, Administrative Assistant
Department of Animal Science and Aquaculture, Dalhousie University
58 Sipi Road, Truro, N.S., B2N 5E3
Email: donna.jamieson@dal.ca Fax: 1-902-895-6734

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture

grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

Part-Time Academic Posting - Department of Engineering, Faculty of Agriculture

Posted by Department of Engineering, Faculty of Agriculture on November 24, 2017 in Job Postings
Posting Date: November 23, 2017

Application Deadline: December 6, 2017

Position: Part Time Academic – Winter 2018

Department: Engineering
