

Biology

Please Note:

Prospective job candidates are URGED to check with the respective department, dean, or payroll office for a more detailed description of qualifications. DO NOT apply for jobs via CUPE 3912, but directly with the contact person for each job posting. Some departments may accept applications online; others might not. It is our recommendation that you include a COMPLETE CV with every application, even if it is not requested.

Jobs are listed newest and expired job postings are periodically archived.

**CUPE 3912 Job Posting for Part-Time Instructor**

Course: BIOL 2304.2LA Animal Biology – LABORATORY

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2021 (06 January 2021 – 20 April 2021)

Schedule: Wednesday 2:30 pm – 5:30 pm

Academic Calendar Description:

Students are introduced to the taxonomic treatment of major

animal phyla with reference to anatomy, function and ecological significance.

Additional Details:

Laboratory only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training. Experience with remote (online) delivery of university courses will be considered an asset.

Duties:

Duties and responsibilities include student instruction in remote laboratory procedures and methods, including pre-lab tutorial; supervision of students performing remote laboratory/field activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students. Asynchronous delivery of the labs may be preferred.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who

currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 30 October 2020.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2321.2L Cell Biology – Laboratory

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2021 (06 January 2021 – 20 April 2021)

Schedule: Wednesday 2:30 pm – 5:30 pm

Academic Calendar Description:

This course is an introduction to the eukaryotic cell with

emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum are considered.

Additional Details:

Laboratory only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training. Experience with remote (online) delivery of university courses will be considered an asset.

Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3402.2L Population Genetics – Lab

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2021 (06 January 2021 – 20 April 2021)

Schedule: Wednesday 2:30 pm-5:29 pm

Academic Calendar Description:

Population genetics is the integration of mathematics with population biology, genetics, and evolution and allows researchers to quantitatively infer what is going on within and among populations based on genetic data. Students focus on developing a basic understanding of the main principles of population genetics and their application to real-world problems.

Additional Details:

Laboratory only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training. Experience with remote (online) delivery of university courses will be considered an asset.

POSITION TITLE	Part-Time Academic (MARI 3090, Winter Term)
POSTING NUMBER	PTAP422P
DEPARTMENT/UNIT	Biology
LOCATION	Halifax

JOB SUMMARY & KEY

RESPONSIBILITIES

(2 positions) The instructor(s) are responsible for the development and/or delivery of lectures on the various characteristics, special adaptations, evolution, ecosystem roles, and population biology of marine mammals. Evaluative material (examinations, mid-terms) will be given and marked. Due to the current COVID-19 outbreak and ongoing extensions to social distance protocols, Dalhousie University is currently making plans to hold courses online for the Winter term. Experience with development and teaching in an online environment is an asset. All instructors hired to teach online will be supported by Dalhousie to develop and deliver their courses from the Centre for Learning and Teaching (clt@dal.ca) and Academic Technology Services (support@dal.ca). More information about preparing to teach online can be found at <https://www.dal.ca/dept/clt.html>. The position(s) reports to the Chair of the Department.

QUALIFICATIONS/REQUIREMENTS
OF POSITION

The applicants will possess a doctorate in biology with teaching and research experience in marine mammalogy. He/she will also have demonstrated ability in lecturing to students in an undergraduate course. First-time applicants to the Department of Biology must provide the names of two

references.

SALARY RANGE/PAY RATE	Per CUPE Collective Agreement
ADDITIONAL INFORMATION	All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons, persons with a disability, racially visible persons, women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community. For more information, please visit www.dal.ca/hiringfordiversity .
TERM OF APPOINTMENT	October 2020 – April 2021 (start date may be negotiable)
OPEN DATE	09/14/2020
CLOSE DATE	09/25/2020
OPEN UNTIL FILLED	
QUICK LINK FOR DIRECT ACCESS TO POSTING	http://dal.peopleadmin.ca/postings/4368

Documents Needed to Apply

Required Documents

1. Cover Letter
2. Résumé / Curriculum Vitae (CV)

POSITION TITLE	Part-Time Academic (BIOL 3062 – Behavioural Ecology, Winter Term)
POSTING NUMBER	PTAP394P
DEPARTMENT/UNIT	Biology
LOCATION	Halifax
JOB SUMMARY & KEY RESPONSIBILITIES	<p>(2 positions) The instructor(s) will be giving lectures examining animal behaviour from an evolutionary perspective. Why do animals do what they do? Using the theory of natural selection as a basis, he/she will examine foraging, grouping patterns, territorial behaviour, parenting, mating behavior, social organization, aggression and co-operation. Due to the current COVID-19 outbreak and ongoing extensions to social distance protocols, Dalhousie University is currently holding courses online for the Fall semester and there is a chance this course could be delivered online during the winter term as well. Experience with teaching in an online environment is an asset. All instructors hired to teach online will be supported by Dalhousie to develop and deliver their courses from the Centre for Learning and Teaching (clt@dal.ca) and Academic Technology Services (support@dal.ca). More information</p>

about preparing to teach online can be found at <https://www.dal.ca/dept/clt.html>. The position(s) reports to the Chair of the Department.

QUALIFICATIONS/REQUIREMENTS OF POSITION The applicants will have an advanced degree in biology and have prior, recent teaching experience in the field of behavioural ecology and demonstrated ability to lecture to over 100 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

SALARY RANGE/PAY RATE Per CUPE Collective Agreement

ADDITIONAL INFORMATION All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons, persons with a disability, racially visible persons, women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 5 August 2020.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

Course: BIOL 2324.1A Ecology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2020 (09 September 2020 – 22 December 2020)

Schedule: Monday/Wednesday 11:30 am – 12:45 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Lecture only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc in Biology or related field (minimum), and relevant experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course; Asynchronous delivery of the lecture and other course content may be preferred.
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty

colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 5 August 2020.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

POSITION TITLE	Part-Time Academic (MARI 3090, Winter Term)
POSTING NUMBER	PTAP401P
DEPARTMENT/UNIT	Biology
LOCATION	Halifax
JOB SUMMARY & KEY	(2 positions) The instructors are

RESPONSIBILITIES

responsible for lecturing on the various characteristics, special adaptations, evolution, ecosystem roles, and population biology of marine mammals. Evaluative material (examinations, mid-terms) will be given and marked. Due to the current COVID-19 outbreak and ongoing extensions to social distance protocols, Dalhousie University is currently holding courses online for the Fall semester and there is a chance this course could be delivered online during the winter term as well. Experience with teaching in an online environment is an asset. All instructors hired to teach online will be supported by Dalhousie to develop and deliver their courses from the Centre for Learning and Teaching (clt@dal.ca) and Academic Technology Services (support@dal.ca). More information about preparing to teach online can be found at <https://www.dal.ca/dept/clt.html>. The position(s) reports to the Chair of the Department.

QUALIFICATIONS/REQUIREMENTS
OF POSITION

The applicants will possess a doctorate in biology with teaching and research experience in marine mammalogy. He/she will also have demonstrated ability in lecturing to students in an undergraduate course. First-time applicants to the Department of Biology must provide the names of two references.

SALARY RANGE/PAY RATE	Per CUPE Collective Agreement
ADDITIONAL INFORMATION	All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons, persons with a disability, racially visible persons, women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community. For more information, please visit www.dal.ca/hiringfordiversity .

2. Résumé / Curriculum Vitae (CV)

Department/Faculty: Biology

Course Name: LAB – Microbial Diversity

Course Code: BIOL 207L LA

Academic Term: Fall

Class Timetable: TBA

Course Unit Value: 0.25

Start Date: 9/9/2020

End Date: 1/8/2021

Qualifications:

The candidate must have a BSc in a life science, at least one year of microbiology laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

As a consequence of COVID-19 and social distancing measures, the

lab

format for Fall 2020 will be adjusted such that the instructor will be expected to prepare two virtual labs during the Fall term and four face-to-face labs (outside the fall term) in the first week of January 2021.

The instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks' notice of the reagents, materials and equipment required for each lab session; this notice should be detailed and comprehensive, including quantities and numbers of all items. The instructor is not responsible for creating the exercises or writing the lab manual. This lab may or may not be provided with a teaching assistant.

For a description of the course content, see BIOL 2207 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Gavin Kernaghan, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/24/2020

Department/Faculty: Biology
Course Name: Human Anatomy & Physiology I
Course Code: BIOL 2205 01
Academic Term: Fall
Class Timetable: TTH 04:30PM – 05:45PM
Course Unit Value: 0.5

Start Date: 9/9/2020
End Date: 12/19/2020

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects, and demonstrated competence in teaching at the university level.

Candidates must also have experience using the Blackboard/Collaborate virtual classroom. Candidates must be willing to participate in additional training in the optimum range of teaching operations in the Moodle LMS and in the Collaborate virtual classroom, if necessary, to reach the required level of competency before the course begins. Candidates must also be sensitive to the needs of distant, mature and part-time learners.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

Due to distance, the mailing of materials may extend beyond the

traditional time frames.

See the description of BIOL 2205 in the MSVU Undergraduate Academic Calendar for more information.

Course: BIOL 3002.1L Entomology – Laboratory

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2020 (09 September 2020 – 22 December 2020)

Schedule: Wednesday 2:30 pm – 5:29 pm

Academic Calendar Description:

This course is an introduction to the fascinating world of insects. The anatomy, physiology and taxonomy of this group are examined. Examination of insect specimens and recognition of the key features for identification is a focus.

Additional Details:

Lab only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness). Experience with remote (online) delivery of university courses will be considered an asset.

Duties:

Duties and responsibilities include student instruction in remote laboratory procedures and methods, including pre-lab tutorial; supervision of students performing remote laboratory/field activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students. Asynchronous delivery of the labs may be preferred.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

-

Application Deadline: 10 July 2020

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

Course: BIOL 3002.1 Entomology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2020 (09 September 2020 – 22 December 2020)

Schedule: Monday/Wednesday 8:30 am – 9:45 am

Academic Calendar Description:

This course is an introduction to the fascinating world of insects. The anatomy, physiology and taxonomy of this group are examined. Examination of insect specimens and recognition of the key features for identification is a focus.

Additional Details:

Lecture only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness). Experience with remote (online) delivery of university courses will be considered an asset.

Duties:

- To prepare, deliver and coordinate the lecture component of the course; Asynchronous delivery of the lecture and other course content may be preferred.
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to:
Dr. Jeremy Lundholm, Chairperson, Department of Biology,
jlundholm@smu.ca.

Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

Course: **BIOL 2307.1L Genetics – Laboratory**

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2020 (09 September 2020 – 22 December 2020)

Schedule: Thursday 2:30 pm – 5:29 pm

Academic Calendar Description:

This course is an introduction to the major topics in genetics. Emphasis is placed on how genes are passed from generation to generation and how genes interact with one another. Topics include the environment that determines phenotype, the creation of genetic variation, mapping genes on chromosomes, and the practical application of this knowledge.

Additional Details:

Lab only. **This course will be delivered remotely.**

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness). Experience with remote (online) delivery of university courses will be considered an asset.

Duties:

Duties and responsibilities include student instruction in remote laboratory procedures and methods, including pre-lab tutorial; supervision of students performing remote laboratory/field activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students. Asynchronous delivery of the labs may be preferred.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

POSITION TITLE

Part-Time Academic (BIOL 2605.03 and BIOL/MARI 3664.03)

POSTING NUMBER

PTAP180P

DEPARTMENT/UNIT

Biology

LOCATION

Halifax

JOB SUMMARY & KEY

The part-time academic will be

RESPONSIBILITIES

responsible for teaching BIOL 2605.03, "Marine Life of Nova Scotia" (intended for non-majors) and BIOL/MARI 3664.03, "Intertidal Ecology" (intended for majors). The courses will be offered in the Summer session, June 1-August 31, 2020. Responsibilities include all aspects of teaching and administering the course, including lectures, test preparation, supervision of teaching assistants, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director and keeping field-related expenses within the approved budget. The part-time academic should expect to spend time before and after the official course dates preparing and marking. 2 positions are available but preference will be given to an instructor who can deliver both courses.

QUALIFICATIONS/REQUIREMENTS
OF POSITION

A graduate degree in Biology or related field and research experience directly related to the topic of the course. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course. Due to the current Covid-19 outbreak, all Dalhousie University classes will be held online for spring and summer semesters. Experience with teaching in an online environment is an asset. All

instructors hired to teach online will be supported by Dalhousie to develop and deliver their courses from the Centre for Learning and Teaching (clt@dal.ca) and Academic Technology Services (support@dal.ca). More information about preparing to teach online can be found at <https://www.dal.ca/dept/clt.html>.

Applications should include a letter, up-to-date C.V., and first-time applicants should provide evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Jennifer Frail-Gauthier <jfrail@dal.ca> before applying if you have any questions about the position.

SALARY RANGE/PAY RATE

Per CUPE Collective Agreement

ADDITIONAL INFORMATION

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons, persons with a disability, racially visible persons, women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of

our community. For more information, please visit www.dal.ca/hiringfordiversity.

Saint Mary's University

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.1 Plant Biology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Spring 2020 (11 May 2020 – 22 June 2020)

Schedule: Monday/Wednesday 9:30 am – 12:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- " To prepare, deliver and coordinate the lecture component of the course
- " To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- " To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 15 March 2020.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, members of visible minorities, Indigenous peoples, and person with disabilities.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.1L Plant Biology – Lab

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Spring 2020 (11 May 2020 – 22 June 2020)

Schedule: Monday/Wednesday 13:30 pm – 16:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

Laboratory only.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

" To provide biology lab instruction (such as pre-lab tutorial) to undergraduate students

" To supervise and advise undergraduate students performing biological lab activities

" To supervise teaching assistants (when available) helping with the lab instruction

" To mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University

" To comply with safety regulations and maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 15 March 2020.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, members of visible minorities, Indigenous peoples, and person with disabilities.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.1 Ecology – Lecture

Department: Department of Biology, Faculty of Science, Saint

Mary's University

Semester: Spring 2020 (11 May 2020 – 22 June 2020)

Schedule: Monday/Wednesday 9:30 am – 12:29 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Lecture only. The lab section for this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field (minimum), and relevant experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- " To prepare, deliver and coordinate the lecture component of the course
- " To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- " To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint

Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 15 March 2020.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, members of visible minorities, Indigenous peoples, and person with disabilities.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.1L Ecology – Lab

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Spring 2020 (11 May 2020 – 22 June 2020)

Schedule: Monday/Wednesday 13:30 pm – 16:29 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Laboratory only. The lecture section for this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field,

and relevant experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

- " To provide biology lab instruction (such as pre-lab tutorial) to undergraduate students
- " To supervise and advise undergraduate students performing biological lab activities
- " To supervise teaching assistants (when available) helping with the lab instruction
- " To mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University
- " To comply with safety regulations and maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 15 March 2020.

Saint Mary's University hires on the basis of merit and is

committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, members of visible minorities, Indigenous peoples, and person with disabilities.

Department/Faculty: Biology
Course Name: Introductory Biology II
Course Code: BIOL 1153 18
Academic Term: Summer Session I
Class Timetable: M, W 5:45 – 8:15 pm
Course Unit Value: 0.50

Start Date: 5/4/2020
End Date: 6/19/2020

Qualifications:

The successful candidate must have a PhD in a life science, expertise in the course subjects, demonstrated competence in teaching at the university level, and experience in the development and/or teaching of online courses.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

For course content, see the description of BIOL 1153 in the MSVU

Undergraduate Academic Calendar. Students will have access to a set of online modules and learning activities. The instructor is expected to guide students as they work through these modules and activities. The instructor may add material that complements the course content. The instructor teaches a live online session on Monday and Wednesday evenings (2.5 h per session). Registration will be limited to 24 students. The lecturer will co-operate with the instructor of the laboratory component of the course in administration (including the determination of final grades) and in addressing student issues.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 2/27/2020

Department/Faculty: Biology
Course Name: Fundamentals of Neuroscience
Course Code: BIOL/PSYC 2260 18
Academic Term: Summer Session I
Class Timetable: M,W,F 7:15 – 8:30 pm
Course Unit Value: 0.50

Start Date: 5/4/2020

End Date: 6/19/2020

Qualifications:

The successful candidate must have a PhD in a life science, expertise in the course subject, demonstrated competence in teaching at the university level, and experience in the development and/or teaching of online courses.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 2260 in the MSVU Undergraduate Academic Calendar. Students will have access to a set of online modules and learning activities. The instructor is expected to guide students as they work through these modules and activities. The instructor may add material that complements the course content. The instructor teaches live online sessions on Mondays, Wednesdays and Fridays (1.25 hour per session).
Registration will be limited to 25 students.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 2/27/2020

Department/Faculty: Biology
Course Name: Laboratory for BIOL 3372 Molecular Genetics
Course Code: BIOL 372L LB
Academic Term: Winter
Class Timetable: Th 5:00 – 7:45 PM
Course Unit Value: 0.25

Start Date: 1/6/2020
End Date: 4/29/2020

Qualifications:

The candidate must have a BSc in biology or a related discipline, at least one year of molecular genetics, molecular biology or genomics laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student

appeals, and other duties appropriate to the appointment. _____

Additional Duties:

The instructor does not create the exercises or write the lab manual. The instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching assistant. For a description of the course content, see BIOL 3372 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 12/16/2019

Department/Faculty: Biology
Course Name: Introductory Biology II (2nd half)
Course Code: BIOL 1153 01 – 2nd Half (2nd posting)
Academic Term: Winter
Class Timetable: MWF 10:30 – 11:20 AM
Course Unit Value: 0.25

Start Date: 1/6/2020
End Date: 4/29/2020

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1153 in the MSVU Undergraduate Academic Calendar. The second half of BIOL 1153 begins on Wednesday, February 26th, 2020 and covers plant biology and ecology. The lecturers of the first and second halves of BIOL 1153 co-operate in administration of the course.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by
curriculum vitae and

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2321.2L Cell Biology – Laboratory
Department: Department of Biology, Faculty of Science, Saint
Mary's University
Semester: Winter 2020 (January 8 – April 18)
Schedule: Wednesday 2:30 pm – 5:30 pm

Academic Calendar Description:

This course is an introduction to the eukaryotic cell with emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum are considered.

Additional Details:

Laboratory only.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

Duties and responsibilities include student instruction in laboratory procedures and methods, including pre-lab tutorial; supervision students performing laboratory activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: November 22, 2019.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's

University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

POSTING DATE: July 23, 2019

APPLICATION DEADLINE: August 2, 2019

POSITIONS: Part-time Academic (3 positions); SEASIDE Program Manager; September 1, 2019 to August 31, 2020

DEPARTMENT/LOCATION: Biology

PAY RATE: \$5,232.00 to \$6,361.00

WORK ASSIGNMENT: Dalhousie's SEASIDE program offers intensive summer courses in Biology and Marine Biology with some courses cross listed with Earth Sciences, Environmental Studies, and Oceanography. The SEASIDE Manager will work with the Undergraduate Curriculum Committee and the department Chair to select and schedule the course offerings, develop course budgets and auxiliary fee schedules. The Manager will work with

the department Chair to recruit and select course instructors. The Manager will coordinate and make arrangements for course requirements including access to appropriate teaching/lab facilities, equipment and supplies, travel arrangements, and access to offsite locations for field trips. While the SEASIDE courses are underway the Manager oversees the operation of the program, approves expenses and monitors the budgets, and responds to issues as they arise. The Manager also acts as a resource providing policy and procedure guidance for the instructors. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology. Previous experience managing a large dynamic field education program, and recent teaching experience (classroom and or laboratory) in the related discipline would be a definite asset. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca

Department of Biology, Room 2078

Dalhousie University

Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all

qualified candidates who would contribute to the diversity of our community.

Department/Faculty: Biology
Course Name: LAB – BIOL 2207 (Microbial Diversity)
Course Code: BIOL 207L LA
Academic Term: Fall
Class Timetable: Th 1:30 – 4:15 PM
Course Unit Value: 0.25 unit

Start Date: 9/4/2019
End Date: 12/19/2019

Qualifications:

The candidate must have a BSc in a life science, at least one year of microbiology laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking,

distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment. —————

Additional Duties:

The instructor does not create the exercises or write the lab manual. The instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching assistant. For a description of the course content, see BIOL 2207 in the MSVU Undergraduate Academic Calendar.

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING

Department: Biology

Faculty: Science

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4H6

POSTING DATE: July 19, 2019

APPLICATION DEADLINE: August 2, 2019

POSITION: Part-time Academic (1 & 1/2 positions); Cell Biology (Biology 2020.03); September 1, to December 31, 2019

DEPARTMENT/LOCATION: Biology

PAY RATE: \$5,232.00 to \$6,361.00 (pro-rated)

WORK ASSIGNMENT: The instructor is responsible for the Cell Biology (BIOL 2020) class lectures and evaluation of students (approximately 300). The instructor will consult with the Laboratory Instructor in the delivery of the course content. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology and have prior, recent teaching

experience in the field of cell and molecular biology and demonstrated ability to lecture to over 100 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

Saint Mary's University

Biology

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.1LA LABORATORY
Ecology

Department: Department of Biology
Semester: Fall 2019 (September 4 – December 19)
Schedule: LABS: Mondays 2:30 pm – 5:29 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Laboratory portion of the course only. The lecture portion is not available.

Qualifications:

Applicants must at least an MSc in Biology or related field. The preferred candidate will have demonstrated relevant teaching experience, with evidence of teaching effectiveness.

Duties:

Duties and responsibilities include: student instruction in laboratory procedures and methods; instruction of pre-lab tutorial; supervision of students performing laboratory activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department; course-related student advising during office hours for students; and working closely with the Department Technician(s) to prepare for weekly labs. Lab Instructors comply with all safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty

colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to Biography@smu.ca

Application Deadline: July 18, 2019.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

Department/Faculty: Biology

Course Name: Human Reproduction, Growth & Maturation

Course Code: BIOL 1114 01

Academic Term: Fall

Class Timetable: MW 7:30 – 8:45 PM

Course Unit Value: 0.5 unit

Start Date: 9/4/2019

End Date: 12/19/2019

Qualifications:

The successful candidate will have a PhD in a life science,

expertise in
the course subjects, and demonstrated competence in
teaching at the
university level.

Duties: Preparation, teaching, student consultation, grading
and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU
Undergraduate Academic
Calendar.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by
curriculum vitae and
the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/9/2019

Department/Faculty: Biology
Course Name: Human Reproduction, Growth & Maturation
Course Code: BIOL 1114 02
Academic Term: Winter
Class Timetable: MW 7:30 – 8:45 PM
Course Unit Value: 0.5 unit

Start Date: 1/6/2020

End Date: 4/29/2020

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/11/2019

Department/Faculty: Biology

Course Name: Human Reproduction, Growth & Maturation

Course Code: BIOL 1114 18

Academic Term: Fall

Class Timetable: T 7:15 – 9:45 PM

Course Unit Value: 0.5 unit

Start Date: 9/4/2019

End Date: 12/19/2019

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects and demonstrated competence in teaching online courses at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU Undergraduate Academic Calendar. Students will have access to a set of online modules.

The instructor is expected to guide students as they work through these modules. The instructor may add material that complements the content of the modules.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/9/2019

Additional Duties:

The instructor does not create the exercises or write the lab manual. The

instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching assistant. For a description of the course content, see BIOL 2202 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/11/2019

Department/Faculty: Biology
Course Name: Human Anatomy and Physiology I
Course Code: BIOL 2205 01
Academic Term: Fall

Class Timetable: TTh 4:30 – 5:45 PM

Course Unit Value: 0.5 unit

Start Date: 9/4/2019

End Date: 12/19/2019

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 2205 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and

the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology

Email: biology@msvu.ca

Application deadline: 7/9/2019

Department/Faculty: Biology
Course Name: Human Anatomy and Physiology II
Course Code: BIOL 2206 01
Academic Term: Winter
Class Timetable: TTh 4:30 – 5:45 PM
Course Unit Value: 0.5 unit

Start Date: 1/6/2020
End Date: 4/29/2020

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 2206 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/11/2019

Department/Faculty: Biology
Course Name: Microbial Diversity
Course Code: BIOL 2207 01
Academic Term: Fall
Class Timetable: TTh 10:30 – 11:45 AM
Course Unit Value: 0.5 unit

Start Date: 9/4/2019
End Date: 12/19/2019

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 2207 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

Part-Time Academic Postings - Biology
Posted by Biology on May 1, 2019 in Job Postings

POSTING DATE: May 1, 2019
APPLICATION DEADLINE: May 10, 2019

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching BIOL 3328.03, "Medical Entomology". The course will be offered in the summer session, May 13 – May 28, 2019, Monday through Saturday, approx. 0905-1655. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic may be responsible for driving

students on field trips in a 7-passenger van rented by the university, and for being responsible for the class on an overnight field trip. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking assignments.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Up-to-date Standard First Aid and CPR certification and a driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO: Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2 www.dal.ca/seaside

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: May 1, 2019

APPLICATION DEADLINE: May 10, 2019

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive BIOL 3327.03, "Entomology". The course will be offered in the Summer session, June 14 – June 30, 2019, and will meet Monday through Saturday, approx. 0905-1655. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. Part-Time Academic Postings - SEASIDE Program
Posted by Biology on April 10, 2019 in Job Postings
PART-TIME ACADEMIC POSTING

SEASIDE Program, Department of Biology, Faculty of Science
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: April 10, 2019
APPLICATION DEADLINE: April 20, 2019

POSITION: Part-time Academic
DEPARTMENT/LOCATION: Biology / Life Sciences Centre
PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the summer course, BIOL/MARI 3221.03, "Diversity of Algae". The course will be offered in an intensive format, with lectures, labs and field trips, and will meet all day, Monday through Sunday from May 6 – 28, 2019. Responsibilities include all aspects of teaching and administering the course, including lectures, labs, field trips, test preparation, and evaluation of tests and assignments. The part-time academic will also be responsible

for preparing a budget in consultation with the SEASIDE program director, and keeping lab and field-related expenses within the approved budget. The part-time academic should expect to spend considerable time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: An advanced degree in Biology or related field and considerable experience with the biology and identification of algae. Up-to-date (within last 3 years) Standard First Aid and CPR certification. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO: Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2 www.dal.ca/seaside

PART-TIME ACADEMIC POSTING

SEASIDE Program, Department of Biology, Faculty of Science
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: April 10, 2019
APPLICATION DEADLINE: April 20, 2019

POSITION: Part-time Academic
DEPARTMENT/LOCATION: Biology / Life Sciences Centre
PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive BIOL 2601.03/BIOL 3219.03, "Flora of Nova Scotia". The course will be offered in the

Summer session, July 2-19, 2019, Monday to Friday, 0905-1655. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, labs, test preparation, supervision of demonstrators, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. The part-time academic may be responsible for driving students in a 7-passenger van rented by the university. The part-time academic should expect to spend time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or extensive experience directly related to the topic of the course. Up-to-date (within last 3 years) Standard First Aid and CPR certification. Driver's license and extensive driving experience. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO: Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2 www.dal.ca/seaside

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2304.1L ANIMAL BIOLOGY

LABORATORY

Department: Department of Biology

Semester: Fall 2019 (September 4 – December 19)

Schedule: WEDNESDAYS 2:30 pm – 5:30 pm

Academic Calendar Description:

Students are introduced to the taxonomic treatment of major animal phyla with reference to anatomy, function and ecological significance.

Additional Details:

LABORATORY only. The lecture section of 2304.1 is not posted and is not available for part-time instruction.

Qualifications:

Applicants must possess at least an MSc in Biology or related field. The preferred applicant will have demonstrated relevant lab teaching experience in university biology.

Duties:

Duties include delivery of biology lab instruction including laboratory procedures and methods, and pre-lab tutorial; supervision of students performing laboratory activities; supervision of teaching assistants (when available); preparation/administration and grading of student assessments and/or other forms of evaluation required by the SMU Biology Department; course-related student advising during office hours; and demonstrated compliance with all safety regulations.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint

Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: biology@smu.ca

Application Deadline: May 15, 2019.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.1A ECOLOGY
LECTURE

Department: Department of Biology
Semester: Fall 2019 (September 4 – December 19)
Schedule: LECTURES Mondays and Wednesdays 8:30 am – 9:45 am

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

LECTURES only. The lab section of 2324.1A is not posted and is not available for part-time instruction.

Qualifications:

Applicants must possess at least an MSc in Biology or related field. The preferred applicant will have demonstrated relevant classroom teaching experience in university biology, and evidence of teaching effectiveness.

Duties:

Duties include the preparation and delivery of course lectures; preparation of student assessments; evaluation of student performance and grading; and providing course-related student advising during student office hours.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

Schedule: LABORATORY: Mondays and Wednesdays 13:30 pm – 4:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of

plants on land to the major groups present today.

Additional Details:

LABORATORY only. The Lecture portion of the course is advertised separately.

Qualifications:

Applicants must possess at least an M.Sc. in Biology or related field. The preferred applicant will have demonstrated relevant lab teaching experience in university biology.

Duties:

Duties include delivery of biology lab instruction; in-lab supervision and instruction of students; in-lab supervision of TAs (when available); preparation and grading of all student assessments; and demonstrated compliance with all lab safety regulations. Responsibilities also include course-related student advising.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: biology@smu.ca

Application Deadline: March 8, 2019

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303 LECTURE

Plant Biology

Department: Department of Biology

Semester: Spring 2019 (09 May 2019 – 21 June 2019)

Schedule: LECTURES: Mondays and Wednesdays 9:30 am – 12:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

LECTURES only. The Laboratory portion of the course is advertised separately.

Qualifications:

Applicants must possess at least an M.Sc. in Biology or related field. The preferred applicant will have demonstrated relevant classroom teaching experience in university biology.

Duties:

Duties include the preparation, delivery, and coordination of the lecture component of the course; preparation and grading of all student assessments; and demonstrated compliance with all lab safety regulations. Responsibilities also include course-related

student advising.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: biology@smu.ca

Application Deadline: March 8, 2019

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Department/Faculty: Biology
Course Name: Human Reproduction, Growth and
Maturation
Course Code: BIOL 1114 18
Academic Term: Summer Session I
Class Timetable: T,Th 7:15-9:45 pm
Course Unit Value: 0.5 unit

Start Date: 5/6/2019
End Date: 6/21/2019

Qualifications:

The successful candidate will have a PhD in a life science,
expertise in
the course subjects and demonstrated competence in
teaching online courses
at the university level.

Duties: Preparation, teaching, student consultation, grading
and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU
Undergraduate Academic
Calendar. Students will have access to a set of online
modules.

The instructor is expected to guide students as they work
through these
modules. The instructor may add material that complements
the content of
the modules. The instructor teaches two live online sessions

per week
(2.5 h per session).

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by
curriculum vitae and
the names of three references to:
Department Chair: Dr. Ron MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 3/10/2019

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and
Maturation
Course Code: BIOL 1114 19 (third posting)
Academic Term: Winter
Class Timetable: T 7:15pm – 9:45pm
Course Unit Value: 0.5 unit

Start Date: 1/7/2019
End Date: 4/30/2019

Qualifications:
The successful candidate will have a PhD in a life science,
expertise in
the course subjects and demonstrated competence in
teaching online courses
at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU Undergraduate Academic Calendar. Students will have access to a set of online modules.

The instructor is expected to guide students as they work through these modules. The instructor may add material that complements the content of the modules.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 12/10/2018

Department/Faculty: Chemistry/Physics
Course Name: LAB – CHEM/BIOL 3502 Intermediary

Metabolism

Course Code: CHEM/BIOL 352L LC (3rd posting)

Academic Term: Winter

Class Timetable: T 5:00pm – 7:45pm

Course Unit Value: 0.25 unit

Start Date: 1/7/2019

End Date: 4/30/2019

Qualifications:

Candidates should have a BSc in Chemistry and experience in biochemistry lab instruction.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

Laboratory set up and clean up, consultation with instructor of the lecture portion of the course(CHEM/BIOL 3502) to facilitate coordination.

Ensure University safety guidelines are met.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and

the names of three references to:

Department Chair: Dr. Aibing Xia, Dept. of Chemistry

Email: chemphys@msvu.ca

Application deadline: 12/5/2018

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.2A Plant Biology – LECTURE

Department: Department of Biology

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Tuesdays and Thursdays 8:30 am – 9:45 am

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

Lectures only.

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include the preparation and delivery of the lecture component of the course; preparation, delivery and evaluation of course related assessments; course related student advising and; compliance with all University and regulatory policies and procedures.

Remuneration:

Remuneration is in accordance with the Collective Agreement

between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 31 October 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.2LA Plant Biology – LABORATORY

Department: Department of Biology

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Tuesdays 2:30 pm – 5:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an

evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

LAB ONLY. Lecture section for this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include student instruction in laboratory procedures and methods, including pre-lab tutorial; supervision students performing laboratory activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email

to: Dr. Jeremy Lundholm, Chairperson, Department of Biology,
jlundholm@smu.ca

Application Deadline: 26 October 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2304.2L Animal Biology – LAB

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Wednesday 2:30 pm – 5:29 pm

Academic Calendar Description:

Students are introduced to the taxonomic treatment of major animal phyla with reference to anatomy, function and ecological significance.

Additional Details:

Laboratory only.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

Duties and responsibilities include student instruction in laboratory procedures and methods, including pre-lab tutorial; supervision students performing laboratory activities; supervision of teaching assistants (when available); evaluation of student

performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 31 October 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.2 Ecology – LECTURE

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Mondays and Wednesdays 1:00 pm – 2:15 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Lecture only. The lab section for this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field (minimum), and relevant experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include the preparation and delivery of the lecture component of the course; preparation, delivery and evaluation of course related assessments; course related student advising and; compliance with all University and regulatory policies and procedures.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3329.2 Systematics – LECTURE

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Tuesdays and Thursdays 10:00 am – 11:15 pm

Academic Calendar Description:

Contemporary systematics includes the study of the diversity of species and their relationships through time. Students examine species characters and character analyses, International Codes of Nomenclature, protocols for describing new species, cladistics-based phylogenetics and molecular sequence analyses, biological classification, and the importance of assessing evolutionary relationships between taxa.

Additional Details:

Lecture only. The lab section for this course is posted separately.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include the preparation and delivery of the lecture component of the course; preparation, delivery and evaluation of course related assessments; course related student advising and; compliance with all University and regulatory policies and procedures.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3332.2 Ecosystems – LECTURE

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Tuesdays and Thursdays 1:00 pm – 2:15 pm

Academic Calendar Description:

Students are introduced to ecosystem ecology by examining ecosystem patterns and processes. Topics include biological hierarchy, energy and material flow through systems, ecosystem structure and food web analysis, ecosystem assembly/succession, stability and resiliency, and successional reversal and ecosystem responses to stress. "Ecosystem Health", "New Ecology" and the ecosystem-based "UN Millennium Assessment" are examined.

Additional Details:

Lecture only. The lab section of this course is posted separately.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include the preparation and delivery of

the lecture component of the course; preparation, delivery and evaluation of course related assessments; course related student advising and; compliance with all University and regulatory policies and procedures.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 31 October 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3332.2L Ecosystems – LAB

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Tuesdays 2:30 pm-5:29 pm

Academic Calendar Description:

Students are introduced to ecosystem ecology by examining ecosystem patterns and processes. Topics include biological hierarchy, energy and material flow through systems, ecosystem structure and food web analysis, ecosystem assembly/succession, stability and resiliency, and successional reversal and ecosystem responses to stress. "Ecosystem Health", "New Ecology" and the ecosystem-based "UN Millennium Assessment" are examined.

Additional Details:

Laboratory only. The lecture section for this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

Duties and responsibilities include student instruction in laboratory procedures and methods, including pre-lab tutorial; supervision students performing laboratory activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who

currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: 31 October 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3402.2 Population Genetics – LECTURE

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Winter 2019 (08 January 2019 – 25 April 2019)

Schedule: Tuesdays and Thursdays 8:30 am – 9:45 am

Academic Calendar Description:

Population genetics is the integration of mathematics with population biology, genetics, and evolution and allows researchers to quantitatively infer what is going on within and among populations based on genetic data. Students focus on developing a basic understanding of the main principles of population genetics and their application to real-world problems.

Additional Details:

Lecture only. The lab section for this course is posted separately.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include the preparation and delivery of the lecture component of the course; preparation, delivery and evaluation of course related assessments; course related student advising and; compliance with all University and regulatory policies and procedures.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 4422.2 Conservation Biology – LECTURE
Department: Department of Biology, Faculty of Science, Saint Mary's University
Semester: Winter 2019 (08 January 2019 – 25 April 2019)
Schedule: Tuesdays and Thursdays 1:00 pm – 2:15 pm

Academic Calendar Description:

This course introduces students to how the principles of evolutionary-ecology can be applied to help us understand how human exploitation of natural resources affects biodiversity. Students characterize biodiversity and explore topics such as the biology of small populations, conservation genetics, ecological economics, and landscape ecology. In the lab students explore

current topics in conservation biology through critiques, population modeling and independent research.

Additional Details:

Lecture only. The lab section of this course is posted separately.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include the preparation and delivery of the lecture component of the course; preparation, delivery and evaluation of course related assessments; course related student advising and; compliance with all University and regulatory policies and procedures.

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and
Maturation
Course Code: BIOL 1114 19 (second posting)
Academic Term: Winter
Class Timetable: T 7:15pm – 9:45pm
Course Unit Value: 0.5 unit

Start Date: 1/7/2019
End Date: 4/30/2019

Qualifications:

The successful candidate will have a PhD in a life science,
expertise in
the course subjects and demonstrated competence in
teaching online courses
at the university level.

Duties: Preparation, teaching, student consultation, grading
and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU
Undergraduate Academic
Calendar. Students will have access to a set of online
modules.

The instructor is expected to guide students as they work
through these
modules. The instructor may add material that complements
the content of
the modules.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 10/23/2018

Part-time Academic Posting - School for Resource and Environmental Studies

Posted by School for Resource and Environmental Studies on September 21, 2018 in Job Postings

POSTING DATE: September 21, 2018

APPLICATION DEADLINE: October 12, 2018

POSITION: Part-time Academic

DEPARTMENT/LOCATION: School for Resource and Environmental Studies (SRES)

RATE OF PAY: According to the CUPE Agreement

WORK ASSIGNMENT: The sessional instructor will teach MGMT 2702 – Resource and Environmental Management, a required course taken by all second year Bachelor of Management students, during the 2018/19 winter term. The course is offered to approximately 150 students and is delivered through weekly 80-minute lectures (scheduled Tuesdays from 11:35 to 14:55) and via tutorials scheduled throughout the week. Lectures are to be delivered by the course instructor while tutorials are led by up to three (3) teaching assistants (TA) whose efforts are coordinated by a head TA but substantively overseen by the course instructor.

The Calendar entry is as follows: “This course provides an overview of principles and techniques embedded in the sustainable management of our resource sector operations, highlighting the relevance of sustainability within today’s business and government leadership decision making processes. The course provides a framework for examining the issues involved in the extraction, manufacture, use and disposal of resources (materials, energy and products), and discusses the various drivers for managers to integrate sustainability into the operations of such systems.”

REQUIREMENTS OF THE POSITION: PhD and/or Masters with equivalent experience in related discipline. Strong understanding of — and experience with – natural resource management and environmental protection, ideally through applied or research work. Prior experience in undergraduate teaching is a strong asset.

IF YOU ARE INTERESTED IN THIS POSITION, PLEASE APPLY IN WRITING BY THE DEADLINE TO:

Dr. Michelle Adams, Director (Interim)
School for Resource and Environmental Studies
Dalhousie University
6100 University Avenue, Suite 5010
PO Box 15000
Halifax, NS B3H 4R2
brenda.smart@dal.ca
FAX: 902-494-3728

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is an Employment Equity/Affirmative Action employer. The University encourages applications from qualified Aboriginal peoples, people with a disability, racially visible persons and women.

Department/Faculty: Biology

Course Name: LAB – BIOL 1152 Introductory Biology I

Course Code: BIOL 152L LE (2nd posting)

Academic Term: Fall

Class Timetable: Th 9:00am – 11:45am

Course Unit Value: 0.25 unit

Start Date: 9/5/2018

End Date: 12/20/2018

Qualifications:

The candidate must have a BSc in biology or related discipline, at least one year of laboratory experience, and some relevant post-BSc teaching experience.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This is a position for a laboratory instructor. The instructor is not responsible for creating the exercises or preparing the lab manual. The instructor works co-operatively with the lecturer for the course, the senior lab instructor, the departmental technician, and teaching assistants. For a description of the course, see the entry for

BIOL 1152
in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by
curriculum vitae and
the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 8/17/2018

Department/Faculty: Biology
Course Name: LAB – BIOL 1152 Introductory Biology I
Course Code: BIOL 152L LF (2nd posting)
Academic Term: Fall
Class Timetable: Th 1:30pm – 4:15pm

Course Unit Value: 0.25 unit

Start Date: 9/5/2018
End Date: 12/20/2018

Qualifications:
The candidate must have a BSc in biology or related
discipline, at least
one year of laboratory experience, and some relevant post-
BSc teaching
experience.

Duties: Preparation, teaching, student consultation, grading
and marking,
distribution of student evaluation questionnaires,

involvement in student
appeals, and other duties appropriate to the
appointment. _____

Additional Duties:

This is a position for a laboratory instructor. The instructor is not responsible for creating the exercises or preparing the lab manual. The instructor works co-operatively with the lecturer for the course, the senior lab instructor, the departmental technician, and teaching assistants. For a description of the course, see the entry for BIOL 1152 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 8/17/2018

Department/Faculty: Biology
Course Name: Laboratory for BIOL 2240 Cell and Molecular Biology
Course Code: BIOL 224L LA (2nd posting)
Academic Term: Fall
Class Timetable: W 4:30 PM – 7:00 PM
Course Unit Value: 0.25 unit

Start Date: 9/5/2018

End Date: 12/20/2018

Qualifications:

The candidate must have a BSc in a life science, at least one year of cell, molecular or biochemistry laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

The instructor does not create the exercises or write the lab manual. The instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching assistant. For a description of the course content, see BIOL 2240 in the

MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

Application deadline: 8/3/2018

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and
Maturation
Course Code: BIOL 1114 02 (2nd posting)
Academic Term: Winter
Class Timetable: W 7:15 – 9:45 PM
Course Unit Value: 0.5 unit

Start Date: 1/7/2019
End Date: 4/30/2019

Qualifications:

The successful candidate will have a PhD in a life science,
expertise in
the course subjects, and demonstrated competence in
teaching at the
university level.

Duties: Preparation, teaching, student consultation, grading
and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU
Undergraduate Academic
Calendar.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 8/3/2018

Department/Faculty: Biology
Course Name: Laboratory for BIOL 3312 General Ecology
Course Code: BIOL 312L LA (2nd posting)
Academic Term: Fall
Class Timetable: Th 1:30 – 4:15pm
Course Unit Value: 0.25 unit

Start Date: 9/5/2018
End Date: 12/20/2018

Qualifications:

The candidate must have a BSc in a life science, at least one year of laboratory or field experience in ecology (post-BSc) and some relevant lab- and/or field-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

The instructor does not create the exercises or write the lab manual. The instructor works with the lecturer and the senior lab instructor, and

supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching assistant. For a description of the course content, see BIOL 3312 in the

MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 8/3/2018

Saint Mary's University
Biology

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.1A Ecology – LECTURE

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2018 (September 4 – December 18)

Schedule: Monday/Wednesday 8:30 am – 9:45 am

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Lecture only. Multiple sections of the labs and lectures for this course are posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field (minimum), and relevant experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include preparation and delivery of course lectures; preparation of assessments; evaluation of student performance and grading; other forms of evaluation required by the SMU Biology Department and/or the University; hold office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who

currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca

Application Deadline: July 3, 2018

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.1A Ecology – LABORATORY

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Fall 2018 (September 4 – December 18)

Schedule: Monday 2:30 pm – 5:30 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Laboratory only. Multiple sections of the labs and lectures for this

course are posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

Duties and responsibilities include student instruction in laboratory procedures and methods, including pre-lab tutorial; supervision students performing laboratory activities; supervision of teaching assistants (when available); evaluation of student performance and grading; preparation/administration of lab assignments and/or other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3004.1 Principles of Physiology – LECTURE
Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2018 (September 4 – December 18)

Schedule: Monday/Wednesday 10:00 am – 11:15 am

Academic Calendar Description:

Students examine basic definitions and principles of physiology at the molecular, cellular and tissue levels. Topics include the fundamentals of membrane structure and function, enzymes and enzyme kinetics, bioenergetics, signal transduction, feedback regulation, cell structure, function, and integration of neurons and skeletal muscles.

Additional Details:

Lecture only. The lab for this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field (minimum), and relevant experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include preparation and delivery of course lectures; preparation of assessments; evaluation of student performance and grading; other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 4404.1 Behavioural Ecology – LECTURE

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Fall 2018 (September 4 – December 18)

Schedule: Tuesday/Thursday 10:00 am – 11:15 am

Academic Calendar Description:

Behavioural Ecology is the examination of how animals interact in their environment with emphasis on the adaptive value of behaviour. Topics include the life-history trade-offs, foraging theory, predation, competition, game theory, natural and sexual selection, mating systems, parental care, and communication. Independent research is conducted in labs.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

Duties and responsibilities include preparation and delivery of course lectures; preparation of assessments; evaluation of student performance and grading; other forms of evaluation required by the SMU Biology Department and/or the University; holding office hours for students; compliance with safety regulations to maintain a safe learning environment for staff and students.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Jeremy Lundholm, Chairperson, Department of Biology, jlundholm@smu.ca.

Application Deadline: July 3, 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

Part-Time Academic Postings: Department of Biology
Posted by Department of Biology on June 15, 2018 in Job Postings
(1)

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: June 15, 2018

APPLICATION DEADLINE: June 24, 2018

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement, prorated to 50% of course

WORK ASSIGNMENT: The part-time academic will be responsible for co-teaching the field and lab intensive BIOL/MARI 3680.03, "Scientific Diving Methods in Ecology". The course will be offered in the Summer session, August 15-30, 2018, Sunday through Saturday, approx. 0835-1655. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic will be responsible for driving students in vehicles rented by the university. The part-time academic should expect to spend considerable time before the course in preparing field exercises and after the official course dates to complete the evaluation of student work.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Rescue Diver or Dive Master qualifications, at least 500 scientific dives logged, and previous experience with supervising students doing scientific diving SCUBA research. Up-to-date (within last 3 years) Standard First Aid and CPR certification and driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course

evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: June 15, 2018
APPLICATION DEADLINE: June 24, 2018

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for co-teaching the field and lab intensive BIOL/MARI 3626.03 (Sec. 2), "Field Studies of Marine Mammals". The course will be

offered in the Summer session, August 14-31, 2018, Sunday through Saturday, approx. 0835-1655 every day. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time instructor will be responsible for students at all times of day for 5 days while off campus on Cape Breton Island, NS. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic will be responsible for driving students in vehicles rented by the university. The part-time academic should expect to spend considerable time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Up-to-date (within last 3 years) Standard First Aid and CPR certification and driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The

university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and Maturation
Course Code: BIOL 1114 02
Academic Term: Winter
Class Timetable: W 7:15 PM – 9:45 PM
Course Unit Value: 0.5 unit

Start Date: 1/7/2019
End Date: 4/30/2019

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU Undergraduate Academic

Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/6/2018

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and Maturation
Course Code: BIOL 1114 19
Academic Term: Winter
Class Timetable: T 7:15pm – 9:45pm
Course Unit Value: 0.5 unit

Start Date: 1/7/2019

End Date: 4/30/2019

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects and demonstrated competence in teaching online courses at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student

appeals, and other duties appropriate to the appointment. -----

Additional Duties:

See the description of BIOL 1114 in the MSVU Undergraduate Academic

Calendar. Students will have access to a set of online modules.

The instructor is expected to guide students as they work through these modules. The instructor may add material that complements the content of the modules.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and

the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 7/6/2018

Department/Faculty: Biology

Course Name: Human Anatomy and Physiology II

Course Code: BIOL 2206 01

Academic Term: Winter

Class Timetable: TTh 4:30pm – 5:45pm

Course Unit Value: 0.5 unit

Start Date: 1/7/2019

End Date: 4/30/2019

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 2206 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

Dalhousie University
Part-Time Academic Postings - Biology/Science

Posted by Biology/Science on May 22, 2018 in Job Postings

POSTING DATE: May 22, 2018

APPLICATION DEADLINE: May 31, 2018

POSITION: Part-time Academic (2 positions); Cell Biology (Biology 2020.03); September 1, to December 31, 2018

DEPARTMENT/LOCATION: Biology

PAY RATE: \$5,018.50 to \$6,149.50

WORK ASSIGNMENT: The instructor is responsible for the Cell Biology (BIOL 2020) class lectures and evaluation of students (approximately 300). The instructor will consult with the Laboratory Instructor in the delivery of the course content. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology and have prior, recent teaching experience in the field of cell and molecular biology and demonstrated ability to lecture to over 100 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca

Department of Biology, Room 2078

Dalhousie University

Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING

Department: Biology

Faculty: Science

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4H6

POSTING DATE: May 22, 2018

APPLICATION DEADLINE: May 31, 2018

POSITION: Part-time Academic (1/2 position), Principles of Biology I (Biology 1010), September 1, to December 31, 2018

DEPARTMENT/LOCATION: Biology

PAY RATE: \$5,028.50 to \$6,149.50 (pro-rated)

WORK ASSIGNMENT: The instructor will be giving approximately 1/3 of the lectures in the genetics and molecular biology section of the class, assisting students on an individual basis, general administration of the classes (handling student issues, submitting grades, etc.) and invigilating tests and examinations. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: Qualifications include a graduate degree in biology and demonstrated ability to lecture to over 900 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Part-Time Academic Postings - Biology

Posted by Biology on April 6, 2018 in Job Postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: April 6, 2018

APPLICATION DEADLINE: April 15, 2018

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive course, BIOL 3630.03, "Field Methods in Animal Behaviour". The course will be offered in the Summer session, April 27 – May 12, 2018, Monday to Friday, approx. 0835-1625. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, labs, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking

assignments.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience in Animal Behaviour. Up-to-date Standard First Aid and CPR certification and a driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2

passenger van rented by the university. The part-time academic should expect to spend time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or extensive experience directly related to the topic of the course. Up-to-date (within last 3 years) Standard First Aid and CPR certification. Driver's license and extensive driving experience. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: April 6, 2018

APPLICATION DEADLINE: April 15, 2018

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement, prorated to 50% of course

WORK ASSIGNMENT: The part-time academic will be responsible for co-teaching the field and lab intensive BIOL/MARI 3626.03 (Sec. 1), "Field Studies of Marine Mammals". The course will be offered in the Summer session, July 26 – Aug. 13, 2018, Sunday through Saturday, approx. 0835-1655. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time instructor will be responsible for students at all times of day for 5 days while off campus near Brier Island, NS. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic will be responsible for driving students in vehicles rented by the university. In addition the part-time academic will oversee the preparation of one or more online modules to be used as a course resource on Brightspace. The part-time academic should expect to spend considerable time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Up-to-date (within last 3 years) Standard First Aid and CPR certification and driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence

of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Saint Mary's University
Biology

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.1 Plant Biology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University

Semester: Spring 2018 (07 May 2018 – 22 June 2018)

Schedule: Monday/Wednesday 9:30 am – 12:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

Lecture only. Please note that the Job Posting for the LAB section of this course is posted separately.

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- " To prepare, deliver and coordinate the lecture component of the course
- " To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- " To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 16 April 2018.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.1L Plant Biology – Lab

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Part-Time Academic Postings - Microbiology and Immunology
Posted by Microbiology and Immunology on December 11, 2017
in Job Postings

POSTING DATE: 08-Dec-17

APPLICATION DEADLINE: POSITION:

Coordinator for MICI 1100 Winter Term 2018 distance education course

DEPARTMENT/LOCATION: Sir Charles Tupper Building, Carlton Campus

PAY RATE: 4881.00

WORK ASSIGNMENT:

Coordinate access to online lectures for an introductory microbiology and immunology course for the Department of Microbiology and Immunology. Answer questions of students by email relating to lecture content. Organize an in-class exam locally and coordinate with off-site students for invigilated exams.

REQUIREMENTS OF POSITION:

PhD in Microbiology and Immunology or related discipline. Experience coordinating online courses considered an asset.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Dr. Andrew Makrigiannis

c/o Michelle Sampson

Department of Microbiology and Immunology

ml.sampson@dal.ca

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The

university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.2 Plant Biology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Tuesday/Thursday 8:30-9:45 am

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess an MSc Biology or related field (minimum), and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2303.2L Plant Biology – Lab

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Thursday 2:30-5:29 pm

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants are also studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Additional Details:

Laboratory only.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

- To provide biology lab instruction (such as pre-lab tutorial) to undergraduate students
- To supervise and advise undergraduate students performing biological lab activities
- To supervise a teaching assistants (when available) helping with

the lab instruction

- To mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations and maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2307.2A Genetics – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Tuesday/Thursday 1:00-2:15 pm

Academic Calendar Description:

This course is an introduction to the major topics in genetics. Emphasis is placed on how genes are passed from generation to generation and how genes interact with one another. Topics include the environment that determines phenotype, the creation of genetic variation, mapping genes on chromosomes, and the practical application of this knowledge.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's

University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2307.2B Genetics – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2321.2 Cell Biology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Tuesday/Thursday 11:30 am-12:45 pm

Academic Calendar Description:

This course is an introduction to the eukaryotic cell with emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum are considered.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including

a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2321.2L Cell Biology- Lab

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Tuesday 2:30-5:29 pm

Academic Calendar Description:

This course is an introduction to the eukaryotic cell with emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum are considered.

Additional Details:

Laboratory only.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field,

and relevant course experience with respect to course instruction (with evidence of teaching effectiveness), and evidence of completing WHMIS training.

Duties:

- To provide biology lab instruction (such as pre-lab tutorial) to undergraduate students
- To supervise and advise undergraduate students performing biological lab activities
- To supervise a teaching assistants (when available) helping with the lab instruction
- To mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations and maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 2324.2 Ecology – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Monday/Wednesday 1:00-2:15 pm

Academic Calendar Description:

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning

environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

CUPE 3912 Job Posting for Part-Time Instructor

Course: BIOL 3402.2 Population Genetics – Lecture

Department: Department of Biology, Faculty of Science, Saint Mary's University.

Semester: Winter 2017 (03 January 2018 – 20 April 2018)

Schedule: Monday/Wednesday 11:30 am- 12:45 pm

Academic Calendar Description:

Population genetics is the integration of mathematics with population biology, genetics, and evolution and allows researchers to quantitatively infer what is going on within and among populations based on genetic data. Students focus on developing a basic understanding of the main principles of population genetics and their application to real-world problems.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant course experience with respect to course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course
- To mark assignments and exams, and complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment for staff and students

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of

teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to: Dr. Susan Bjornson, Chairperson, Department of Biology, susan.bjornson@smu.ca.

Application Deadline: 17 November 2017.

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

Mount Saint Vincent University

Department/Faculty: Biology
Course Name: Introductory Biology II (1st half)
Course Code: BIOL 1153 01 (1st half)
Academic Term: Winter
Class Timetable: MWF 10:30 – 11:20am
Course Unit Value: 0.25 unit

Start Date: 1/3/2018
End Date: 4/25/2018

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and

marking,
distribution of student evaluation questionnaires, involvement in
student
appeals, and other duties appropriate to the
appointment. -----

Additional Duties:

See the description of BIOL 1153 in the MSVU Undergraduate
Academic
Calendar. The first half of BIOL 1153 ends on February 14, 2018. This
half includes an overview of diversity and study of microbes, viruses
and
animals. The lecturers of the first and second halves of BIOL 1153
co-operate in administration of the course.

Remuneration: Remuneration is in accordance with the Collective
Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum
vitae and
the names of three references to:
Department Chair: Dr. Gavin Kernaghan, Dept. of Biology
Email: Biology@msvu.ca

Application deadline: 10/17/2017

Department/Faculty: Biology
Course Name: Introductory Biology II (1st half)
Course Code: BIOL 1153 02 (1st half)
Academic Term: Winter
Class Timetable: MWF 12:00 – 12:50pm

Course Unit Value: 0.25 unit

Start Date: 1/3/2018
End Date: 4/25/2018

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1153 in the MSVU Undergraduate Academic Calendar. The first half of BIOL 1153 ends on February 14, 2018. This half includes an overview of diversity and study of microbes, viruses and animals. The lecturers of the first and second halves of BIOL 1153 co-operate in administration of the course.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Gavin Kernaghan, Dept. of Biology
Email: Biology@msvu.ca

Application deadline: 10/17/2017

Mount Saint Vincent University

Department/Faculty: Biology

Course Name: Laboratory for BIOL 2240 Cell and Molecular Biology

Course Code: BIOL 224L LB

Academic Term: Winter

Class Timetable: W 5:00 – 7:45 pm

Course Unit Value: 0.25 unit

Start Date: 1/3/2018

End Date: 4/25/2018

Qualifications:

The candidate must have a BSc in a life science, at least one year of cell, molecular or biochemistry laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

The instructor does not create the exercises or write the lab manual. The instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching

assistant. For a description of the course content, see BIOL 2240 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Gavin Kernaghan, Dept. of Biology
Email: Biology@msvu.ca

Application deadline: 10/2/2017

Part-Time Academic Position - Biology

Posted by Biology/Science on August 4, 2017 in Job Postings
POSTING DATE: August 4, 2017

APPLICATION DEADLINE: August 13, 2017

POSITION: Part-time Academic (1/2 position), Principles of Biology I (Biology 1010, September 1, to December 31, 2017)

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969 (prorated)

WORK ASSIGNMENT: The instructor will be giving approximately 1/3 of the lectures in the genetics and molecular biology section of the class, assisting students on an individual basis, general administration of the classes (handling student issues, submitting grades, etc.) and invigilating tests and examinations. The position

reports to the Chair of the Department.

REQUIREMENTS OF POSITION: Qualifications include a graduate degree in biology and demonstrated ability to lecture to over 900 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4J1

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

Department/Faculty: Biology
Course Name: Laboratory for BIOL 3309 Physiology of Plants
Course Code: BIOL 309L LA
Academic Term: Winter
Class Timetable: Th 1:30pm – 4:15pm
Course Unit Value: 0.25 unit

Start Date: 1/3/2018

End Date: 4/25/2018

Qualifications:

The candidate must have a BSc in biology or a related discipline, at least one year of plant physiology or plant ecophysiology laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

The instructor does not create the exercises or write the lab manual. The instructor works with the lecturer and the senior lab instructor, and supervises the activities of the technician, teaching assistant and students. The instructor should not modify the exercises described in the lab manual without consultation with the lecturer. The instructor is responsible for providing the technician with at least two weeks-notice of the reagents, materials and equipment required for each lab session – this notice should be detailed and comprehensive, including quantities and numbers of all items. This lab may or may not be provided with a teaching assistant. For a description of the course content, see BIOL 3309 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by
curriculum vitae and
the names of three references to:
Department Chair: Dr. Gavin Kernaghan, Dept. of Biology
Email: Biography@msvu.ca

Application deadline: 7/21/2017

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and
Maturation
Course Code: BIOL 1114 01
Academic Term: Fall
Class Timetable: W 7:15pm – 9:45pm
Course Unit Value: 0.5 unit

Start Date: 9/6/2017
End Date: 12/21/2017

Qualifications:

The successful candidate will have a PhD in a life science,
expertise in
the course subjects, and demonstrated competence in
teaching at the
university level.

Duties: Preparation, teaching, student consultation, grading

and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment. _____

Additional Duties:

See the description of BIOL 1114 in the MSVU
Undergraduate Academic
Calendar.

**CUPE 3912 Job Posting for Part-Time Inst**

Course: BIOL 3002.1L Entomology - Lab
Department: Department of Biology, Faculty of Science, Saint Mary's University
Semester: Fall 2017 (06 September 2017 – 16 December 2017)
Schedule: Thursday 2:30-5:49 pm

Academic Calendar Description:

This course is an introduction to the fascinating world of insects. The anatomy and physiology of this group are examined. Examination of insect specimens and recognition of insects is a focus.

Additional Details:

Laboratory only.

Qualifications:

Preferred applicant will possess an MSc in Biology or related field, and relevant experience in course instruction (with evidence of teaching effectiveness), and evidence of research.

Duties:

- To provide biology lab instruction (such as pre-lab tutorial) to undergraduate students
- To supervise and advise undergraduate students performing biology lab work
- To supervise a teaching assistants (when available) helping with the lab
- To mark biology lab assignments and/or complete any other form required by the Biology Department and/or the University
- To comply with safety regulations and maintain a safe learning environment

Remuneration:

Remuneration is in accordance with the Collective Agreement between CUPE 3912 and Saint Mary's University.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, name and contact information of three referees, and any evidence of research).

CUPE 3912 Job Posting for Part-Time Inst

Course: BIOL 2303.1 Plant Biology - Lecture
Department: Department of Biology, Faculty of Science, Saint Mary's University
Semester: Fall 2017 (06 September 2017 – 16 December 2017)
Schedule: Monday/Wednesday 10:00-11:15 am

Academic Calendar Description:

This course is an introduction to plant biology, with emphasis on angiosperm evolution and development, basic mechanisms of photosynthesis and respiratory regulation. Land plants are also studied from an evolutionary perspective, from the origin of plants on land to the major groups present today.

Additional Details:

Lecture only.

Qualifications:

Preferred applicant will possess a PhD in Biology or related field, and relevant experience in course instruction (with evidence of teaching effectiveness).

Duties:

- To prepare, deliver and coordinate the lecture component of the course
- To mark assignments and exams, and complete any other forms required by the Biology Department and/or the University
- To comply with safety regulations that maintain a safe learning environment

Remuneration:

Remuneration is in accordance with the Collective Agreement between CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment should submit a complete application (including a cover letter, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to:

Department/Faculty: Chemistry/Physics
 Course Name: LAB – CHEM/BIO 3502 Intermediary
 Metabolism
 Course Code: CHEM/BIO 352L LB
 Academic Term: Summer Session II
 Class Timetable: TTh 9:00am – 11:45am
 Course Unit Value: 0.25 unit

Start Date: 7/4/2017

End Date: 8/18/2017

Qualifications:

Candidates should have a BSc in Chemistry and experience in biochemistry lab instruction.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

Laboratory set up and clean up, consultation with instructor of the lecture portion of the course(CHEM/BIOL 3502) to facilitate coordination.
Ensure University safety guidelines are met.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Cherif Matta, Dept. of Chemistry
Email: chemphys@msvu.ca

Application deadline: 6/9/2017

Department/Faculty: Chemistry/Physics
Course Name: LAB – CHEM/BIOLOGICAL 3502 Intermediary
Metabolism
Course Code: CHEM/BIOLOGICAL 352L LB
Academic Term: Summer Session II
Class Timetable: TTh 9:00am – 11:45am
Course Unit Value: 0.25 unit

Start Date: 7/4/2017
End Date: 8/18/2017

Qualifications:

Candidates should have a BSc in Chemistry and experience in biochemistry lab instruction.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

Laboratory set up and clean up, consultation with instructor of the lecture portion of the course(CHEM/BIOLOGICAL 3502) to facilitate coordination.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Cherif Matta, Dept. of Chemistry
Email: chemphy@msvu.ca

Application deadline: 6/9/2017

Department/Faculty: Biology
Course Name: Basic Neuroscience
Course Code: BIOL/PSYCH 2260 18
Academic Term: Summer Session I
Class Timetable: M 7:15 – 9:15 PM
Course Unit Value: 0.5 unit

Start Date: 5/8/2017
End Date: 6/23/2017

Qualifications:

The successful candidate must have a PhD in a life science, expertise in the course subject, demonstrated competence in teaching at the university level, and experience in the development and/or teaching of online courses.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the

appointment. _____

Additional Duties:

See the description of BIOL 2260 in the MSVU Undergraduate Academic Calendar. Students will have access to a set of online modules and learning activities. The instructor is expected to guide students as they work through these modules and activities. The instructor may add material that complements the course content. Registration will be limited to 24 students.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: Biography@msvu.ca

Application deadline: 4/21/2017

Part-Time Academic Positions - Biology

Posted by Biology on March 24, 2017 in Job Postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: March 27, 2017

APPLICATION DEADLINE: April 5, 2017

POSITION: One-Half Time Part-time Academic; Diversity of Life I (Biology 2003.03); September 1, to December 31, 2017

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-5,969

WORK ASSIGNMENT: The instructor is responsible for approximately one-half of the class lectures during the term; assisting students on an individual basis; general administration of the classes (handling student issues, submitting grades, etc.); and invigilating tests and examinations. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology. Previous, recent teaching experience in the related discipline and demonstrated ability to lecture to a large class of undergraduate students would be a definite asset. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of

minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4J1

POSTING DATE: March 27, 2017

APPLICATION DEADLINE: April 5, 2017

POSITION: Sessional Instructor (1/3 position), Genetics and Molecular Biology (Biology 2030), September 1, to December 31, 2017

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969

WORK ASSIGNMENT: The sessional instructor will be giving approximately 1/3 of the lectures of the class. The lectures will cover the areas of: chromosome structure and variation; structure of nucleic acids, RNA processing and DNA replication, transcription and translation.

REQUIREMENTS OF POSITION: Qualifications include a graduate degree in biology with a specialization in genetics and molecular biology; demonstrated ability to lecture to over 100 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: March 27, 2017

APPLICATION DEADLINE: April 5, 2017

POSITION: Part-time Academic; Introductory Ecology (Biology 2060.03); January 1, to April 30, 2018

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-5,969

WORK ASSIGNMENT: The instructor is responsible for the class lectures and evaluation of students. The class covers population growth, competition, predation, food webs, metapopulation dynamics, biodiversity and ecosystem functions. The instructor will consult with the laboratory instructor in the delivery of the course content. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an

advanced degree in biology and have prior, recent teaching experience in the field of ecology and demonstrated ability to lecture to over 100 undergraduate students. First-time applicants to the Department of Biology must provide the names of two references.

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The University encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

Positions: SMU Biology Department Part-Time Instructors for:

Spring 2017:

BIOL2303.1 Plant Biology (lecture and lab).

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants will also be studied from an evolutionary perspective, spanning from the first appearance of plants on land to the major groups present today.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment

for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Monday/Wednesday 9:30 am-12:30 pm. Lab: Monday/Wednesday (1:30 pm-4:30 pm). Start date: 08 May 2017. End date: 22 June 2017.

Application deadline: 17 March 2017.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2304.1 Animal Biology (lecture and lab).

This course will introduce students to the taxonomic treatment of major animal phyla with reference to anatomy, function and ecological significance.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab

instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tuesday/Thursday 9:30 am-12:30 pm. Lab: Tuesday/Thursday (1:30 pm-4:30 pm). Start date: 08 May 2017. End date: 22 June 2017.

Application deadline: 17 March 2017.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2324.1 Ecology (lecture and lab).

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations,

competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Monday/Wednesday 9:30 am-12:30 pm. Lab: Monday/Wednesday (1:30 pm-4:30 pm). Start date: 08 May 2017. End date: 22 June 2017.

Application deadline: 17 March 2017.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Saint

Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

Department/Faculty: Chemistry/Physics
Course Name: Introductory Biochemistry
Course Code: CHEM/BIOL 3501 01
Academic Term: Summer Session I
Class Timetable: MTWTh 1:30 – 2:45 pm
Course Unit Value: 0.5 unit

Start Date: 5/8/2017
End Date: 6/23/2017

Qualifications:

Candidates should have satisfactory experience in teaching Chemistry in the appropriate field at the University level, a PhD degree in Chemistry preferred.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

Consultation with CHEM 351L lab instructor to facilitate coordination

between lecture and lab.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Cherif Matta, Dept. of Chemistry
Email: chemphys@msvu.ca

Application deadline: 2/27/2017

Department/Faculty: Chemistry/Physics
Course Name: LAB – Introductory Biochemistry
Course Code: CHEM/BIOL 351L LA
Academic Term: Summer Session I
Class Timetable: MW 9:00 – 11:45 am
Course Unit Value: 0.25 unit

Start Date: 5/8/2017
End Date: 6/23/2017

Qualifications:
Candidates should have a BSc in Chemistry and experience in biochemistry lab instruction.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

Laboratory set up and clean up, consultation with instructor of the lecture portion of the course(CHEM/BIOLOG 3501) to facilitate coordination.

Ensure University safety guidelines are met.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Cherif Matta, Dept. of Chemistry
Email: chemphys@msvu.ca

Application deadline: 2/27/2017

Department/Faculty: Chemistry/Physics
Course Name: Intermediary Metabolism
Course Code: CHEM/BIOLOG 3502 01
Academic Term: Summer Session II
Class Timetable: MTWTh 1:30 – 2:45 pm
Course Unit Value: 0.5 unit

Start Date: 7/4/2017

End Date: 8/18/2017

Qualifications:

Candidates should have satisfactory experience in teaching Chemistry in the appropriate field at the University level. A PhD degree in Chemistry preferred.

Duties: Preparation, teaching, student consultation, grading

and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment. _____

Additional Duties:

Consultation with CHEM 352L lab instructor to facilitate
coordination
between lecture and lab.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by
curriculum vitae and
the names of three references to:
Department Chair: Dr. Cherif Matta, Dept. of Chemistry
Email: chemphys@msvu.ca

Application deadline: 2/27/2017

Part-Time Academic Posting - Biology

Posted by Biology on January 9, 2017 in Job Postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: January 6, 2016

APPLICATION DEADLINE: January 16, 2016

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the course BIOL / MARI 4809.03, "Special Topics: Making an Impact – Communication Skills for Biologists". The course will be offered in the Summer session, May 29 – June 13, 2017, Monday to Friday, approx. 0900-1700.

Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, labs, assignment preparation, and evaluation of assignments. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking assignments.

REQUIREMENTS OF POSITION: An academic background in both science and mass communications, a relevant graduate degree, and relevant work experience and/or teaching experience.

Preference will be given to candidates with previous university teaching experience in science communication and professional expertise in communicating science to audiences outside of academia.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2

www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: Dec. 5, 2016

APPLICATION DEADLINE: Dec. 14, 2016

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive course, BIOL 3630.03, "Field Methods in Animal Behaviour". The course will be offered in the Summer session, April 27 – May 12, 2017, Monday to Friday,

approx. 0835-1625. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, labs, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking assignments.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience in Animal Behaviour. Up-to-date Standard First Aid and CPR certification and a driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

WORK ASSIGNMENT: The part-time academic will be responsible for teaching or co-teaching BIOL 3628.03, "Marine Ornithology". The course will be offered in the summer session and meet from July 4 – 19, 2017, Sunday through Saturday, approx. 0905-1655 (but on the week-long field trip the course will meet all day every day). Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. In addition, the part-time academic will be responsible for students at all times of day for 7 days while off campus on seabird islands. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic will be responsible for driving students in vehicles rented by the university, and for meal planning and obtaining food and supplies for the week off campus. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and

marking assignments.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and extensive field research experience with marine birds. Up-to-date Standard First Aid and CPR certification and driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

**PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2**

POSTING DATE: Dec. 5, 2016
APPLICATION DEADLINE: Dec. 14, 2016

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive BIOL 2601.03, "Flora of Nova Scotia". The course will be offered in the Summer session, July 4 – 20, 2017, Monday to Friday, 0905-1655, plus one Saturday (July 15). Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, labs, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. The part-time academic may be responsible for driving students in a 7-passenger van rented by the university. The part-time academic should expect to spend considerable time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Up-to-date (within last 3 years) Standard First Aid and CPR certification. Driver's license and extensive driving experience. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

Part-Time Academic Postings - Biology

Posted by Biology/Science on November 7, 2016 in Job Postings
POSTING DATE: November 7, 2016

APPLICATION DEADLINE: November 16, 2016

POSITION: Part-time Academic; Introductory Biology I (Biology 1020, online); January 1, to April 30, 2017

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969

WORK ASSIGNMENT: The instructor is responsible for the administration and delivery of BIOL 1020 (Introductory Biology I: Cells, Genetics, and Evolution), including content review in the form of webcasts and web conferences, assisting students on an individual basis, managing teaching assistants, invigilating tests and examinations, and submitting grades. The position reports to the Chair of the Department. For more information about BIOL1020, please visit biol102021.wordpress.com.

REQUIREMENTS OF POSITION: The candidate should have an MSc or equivalent academic experience in Biology, and experience in the LMS used at Dalhousie University (Brightspace) or be willing to attend training sessions. Candidates must have a strong background and interest in teaching, good communication skills, and ability to work as a team member. Experience teaching at the introductory level and additional training or experience in online learning and web technologies are assets. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

Department/Faculty: Biology

Course Name: Laboratory for BIOL 3322 Animal
Developmental Biology
Course Code: BIOL 322L LA (2nd posting)
Academic Term: Winter
Class Timetable: Th 1:30 – 4:15 PM
Course Unit Value: 0.25 unit

Start Date: 1/4/2017
End Date: 4/26/2017

Qualifications:

The candidate must have a BSc in a life science, a least one year of experience (post-BSc) in an animal developmental biology laboratory, and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This is a position for a laboratory instructor. The instructor works with the lecturer, the technician and any teaching assistant to deliver the exercises in the lab manual (provided). The lab instructor is expected to inform the technician of necessary supplies and equipment in a timely manner. This lab may or may not be provided with a teaching assistant.

The lab and lecture components of this course will be supervised by a full-time faculty member. The lab instructor is expected to work closely

with the full-time faculty member to ensure coordination of labs and lectures.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: Biography@msvu.ca

Application deadline: 11/16/2016

Positions: SMU Biology Department part-time instructors for Winter 2017 (January-April):

BIOL 2321 Cell Biology (lecture and lab). Prerequisites: BIOL 1201 & BIOL 1202

An introduction to the eukaryotic cell with emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum will be considered.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing

biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (11:30 am-12:45 pm). Lab: Tues (2:30-5:30 pm). Start date: January 04, 2017. End date: April 19, 2017.

Application deadline: November 02, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3329 Systematics (lab only). Prerequisite: BIOL 2324

Contemporary systematics includes the study of the diversity of species and their relationships through time. Students will

examine species characters and character analyses, International Codes of Nomenclature, protocols for describing new species, cladistics-based phylogenetics and molecular sequence analyses, biological classification, and the importance of assessing evolutionary relationships between taxa.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lab: Tues (2:30-5:30 pm). Start date: January 04, 2017. End date: April 19, 2017.

Application deadline: November 02, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3423 Evolution (lecture and lab). Prerequisite: BIOL 2324

Students are exposed to evolution and the importance of evolutionary thinking in biology. Topics include evolutionary theory, how evolutionary processes have resulted in the diversity of life today, and how evolutionary thinking can inform their daily lives.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (10:00 am-11:15 pm). Lab: Tues (2:30-5:30 pm). Start date: January 04, 2017. End date: April 19, 2017.

Application deadline: November 02, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science

degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 4422 Conservation Biology (lecture and lab). Prerequisite: BIOL 3308 & BIOL 3423

This course introduces how the principles of evolutionary-ecology can be applied to help us understand how human exploitation of natural resources affects biodiversity. The course will characterize biodiversity and explore topics such as the biology of small populations, conservation genetics, ecological economics, and landscape ecology. In the lab students explore current topics in conservation biology through critiques, population modeling and independent research.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant

course experience with respect to course instruction. Lab:
Minimum MSc in Biology and relevant course experience with
respect to course instruction.

Lecture: Mon/Weds (1:00-2:15 am). Lab: Mon (2:30-5:30 pm). Start
date: January 04, 2017. End date: April 19, 2017.

Application deadline: November 02, 2016.

How to apply: Individuals who have instructed before in the SMU
Biology department need only send his/her updated CV (complete
with education and past teaching experience). Other applicants
must submit his/her updated CV, a copy of their highest Science
degree, a 500-word teaching philosophy, course evaluations from
other institutions (if applicable), and the names and contact
information of 3 references. Although candidates of all
nationalities are encouraged to apply, priority will be given to
Canadian citizens and permanent residents (all applicants should
clearly indicate their status as a Canadian citizen or permanent
resident). Saint Mary's University is committed to the principles of
employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson,
Chairperson, Department of Biology, Saint Mary's University,
Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Application deadline: 10/25/2016

Department/Faculty: Biology
Course Name: Animal Developmental Biology (1st half)
Course Code: BIOL 3322 01 (1st half)
Academic Term: Winter
Class Timetable: MWF 9:00 – 9:50 AM
Course Unit Value: 0.25 unit

Start Date: 1/4/2017
End Date: 4/26/2017

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the

appointment. _____

Additional Duties:

The first half of BIOL 3322 ends on 15th February, 2017. The subjects to be covered by this date include the zygote and blastula, symmetry, comparative gastrulation (frog and sea urchin), axis formation and neurulation. The two halves of the course and associated labs will be coordinated by the full-time faculty member designated by the Department to teach the second half of the course. The successful applicant will work with this faculty member on course-content, assignments, evaluation of work and submission of grades to ensure synergy between the two halves of the course.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: Biography@msvu.ca

Application deadline: 10/24/2016

Part Time Academic Posting Department of Animal Science and Aquaculture

Posted by Department of Animal Science and Aquaculture on September 12, 2016 in Job Postings
Part-time Academic position teaching online Course ANSC2004 (Organic Livestock Production) in the 2017 winter semester. ANSC2004 is a distance education course administered through the Extended Learning Department.

The Part-time Academic will be responsible for all aspects of teaching and administering the class, including lectures, test preparation and evaluation. Ph.D preferred in the area of Animal Science. Would consider a MSc. in the area of expertise, with a minimum of two years experience. Demonstrated teaching experience required in a post-secondary level environment, with experience in organic livestock systems.

Previous experience in supervising students would be an asset. Salary in accordance to the CUPE Collective Agreement.

If you are interested in this position, please apply in writing to Donna Jamieson at atdonna.jamieson@dal.ca. Applications should include a curriculum vitae. Application deadline is September 23rd, 2016.

Department/Faculty: Biology
Course Name: Laboratory for BIOL 3310 Physiology of Animals
Course Code: BIOL 310L LA
Academic Term: Fall
Class Timetable: M 1:30 – 4:15 pm
Course Unit Value: 0.25 unit

Start Date: 9/7/2016
End Date: 12/22/2016

Qualifications:

The candidate must have a MSc in biology or a related discipline, at least one year of laboratory experience in animal physiology and some relevant lab-teaching experience.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This is a position for a laboratory instructor. The instructor does not create the exercises or write the lab manual. The instructor works co-operatively with the lecturer, the senior lab instructor, the technician and teaching assistants. This lab may or may not be provided with a teaching assistant. For a description of the course, see BIOL 3310 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: Biology@msvu.ca

Application deadline: 8/31/2016

Saint Mary's University

Positions: SMU Biology Department part-time instructors for Fall 2016 (Sept-Dec):

BIOL2324.1 Ecology (lab only).

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the coordination of the laboratory component of the course, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lab instructors must successfully complete WHMIS training or provide documentation to verify that WHMIS training has been successfully completed during the last 8 months.

Lab: Mon (2:30-5:30 pm). Start date: September 07, 2016. End date: December 17, 2016.

Application deadline: August 21, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Department/Faculty: Biology
Course Name: Plants: Form and Function
Course Code: BIOL 2203 01 – 3rd posting
Academic Term: Fall
Class Timetable: MW 9:00 – 10:15 AM
Course Unit Value: 0.5 unit

Start Date: 9/7/2016
End Date: 12/22/2016

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment. —————

Additional Duties:

See the description of BIOL 2203 in the MSVU Undergraduate Academic Calendar. —————

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912 —————

Part-Time Academic Postings - Biology/Science

Posted by Biology/Science on July 20, 2016 in Job Postings
POSTING DATE: July 20, 2016

APPLICATION DEADLINE: July 29, 2016

POSITION: Part-time Academic (2 positions): Communities and Ecosystems (BIOL3061); September 1, to December 31, 2016

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969

WORK ASSIGNMENT: The instructor is responsible for the class lectures. The instructor will also assist students on an individual basis, hire/supervise TA's, invigilate tests and examinations and mark and submit grades. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The instructor will possess an advanced degree in biology (with emphasis in ecology as it relates to communities and ecosystems, sustainability and political ecology) and have prior, recent teaching experience in at least one of the fields of ecology or sustainability. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2088
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

Department/Faculty: Biology
Course Name: Plants: Form and Function
Course Code: BIOL 2203 01 – 2nd posting
Academic Term: Fall
Class Timetable: MW 9:00 – 10:15 AM
Course Unit Value: 0.5 unit

Start Date: 9/7/2016
End Date: 12/22/2016

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 2203 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and

the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology

Email: Biology@msvu.ca

Application deadline: 7/25/2016

Saint Mary's University

Positions: SMU Biology Department part-time instructors for Fall 2016 (Sept-Dec):

BIOL 3308 Biostatistics (lab). Prerequisites: 9 credit hours in 2000-level BIOL

Students are introduced to the methods of graphing and analyzing quantitative data in the biological sciences with emphasis on practical applications of statistics in biology. Topics include descriptive statistics, normal and non-normal distributions, probability, correlation, regression, tests of significance such as analysis of variance, and sampling methods.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lab: Weds (2:30-5:30 pm). Start date: September 07, 2016. End date: December 17, 2016.

Application deadline: June 30, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3332 Ecosystems (lecture and lab). Prerequisites: BIOL 2324
Students are introduced to ecosystem ecology by examining ecosystem patterns and processes. Topics include biological hierarchy; energy and material flow through systems, ecosystem structure and food web analysis, ecosystem assembly/succession, stability and resiliency, and successional reversal and ecosystem responses to stress. "Ecosystem Health", "New Ecology" and the ecosystem-based "UN Millennium Assessment" will be examined.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lab instructors must successfully complete WHMIS training or provide documentation to verify that WHMIS training has been successfully completed during the last 8 months.

Lecture: Tues/Thurs (8:30-9:45 am). Lab: Tues (2:30-5:30 pm). Start date: September 07, 2016. End date: December 17, 2016.

Application deadline: June 30, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3398 Microbiology (lecture and lab). Prerequisites: BIOL 2321 This course is an introduction to the world of microorganisms, the means by which they are studied, and their role in human disease. Topics may include: the origin and discovery of microbial life, structure and function of prokaryotic cells, cell growth and development, and the role of bacteria, fungi, viruses and protozoa with respect to the development of human disease.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or

laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lab instructors must successfully complete WHMIS training or provide documentation to verify that WHMIS training has been successfully completed during the last 8 months.

Lecture: Mon/Weds (11:30 am-12:45 pm). Lab: Weds (2:30-5:30 pm).
Start date: September 07, 2016. End date: December 17, 2016.

Application deadline: June 30, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 4010 Biology of Cancer (lecture and lab). Prerequisites: BIOL

3304 & BIOL 3419

Students study current models of the nature of cancer and how cancer arises in a multicellular body. Topics include the molecular mechanisms that control normal growth and development, including oncogenes, tumor suppressors, the cell cycle, cell death, and cell communication. Students explore how molecular mechanisms act inappropriately in cancer cells, and how this knowledge influences anti-cancer therapies.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lab instructors must successfully complete WHMIS training or provide documentation to verify that WHMIS training has been successfully completed during the last 8 months.

Lecture: Mon/Weds (8:30-9:45 am). Lab: Mon (2:30-5:30 pm). Start date: September 07, 2016. End date: December 17, 2016.

Application deadline: June 30, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other

institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 4431 Herpetology (lecture and lab). Prerequisites: BIOL 3320 Herpetology is the study of amphibians and reptiles. Topics include ecology, natural history, form and function of amphibians and reptiles with emphasis on Nova Scotia herpetofauna.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lab instructors must successfully complete WHMIS training or provide documentation to verify that WHMIS training has been successfully completed during the last 8 months.

Lecture: Mon/Weds (1:00-2:15 pm). Lab: Weds (2:30-5:30 pm). Start date: September 07, 2016. End date: December 17, 2016.

Application deadline: June 30, 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Part-Time Academic Posting - Biology/Science

Posted by Biology/Science on May 30, 2016 in Job Postings

POSTING DATE: May 30, 2016

APPLICATION DEADLINE: June 8, 2016

POSITION: Part-time Academic: Communities and Ecosystems (BIOL3061); September 1, to December 31, 2016

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-5,969

WORK ASSIGNMENT: The instructor is responsible for the class lectures. The instructor will also assist students on an individual basis, hire/supervise TA's, invigilate tests and examinations and mark and submit grades. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The instructor will possess an advanced degree in biology (with emphasis in ecology as it relates to communities and ecosystems, sustainability and political ecology) and have prior, recent teaching experience in at least one of the fields of ecology or sustainability. First-time applicants to the Department of Biology must provide the names of two references.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2088
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

Department/Faculty: Biology
Course Name: Introductory Biology I (2nd half)
Course Code: BIOL 1152 01 (2nd half)
Academic Term: Fall
Class Timetable: MWF 10:30 – 11:20 AM

Course Unit Value: 0.25 unit

Start Date: 9/7/2016

End Date: 12/22/2016

Qualifications:

The successful candidate will have a PhD in a life science, expertise in the course subjects and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 1152 in the MSVU Undergraduate Academic Calendar. The second half of BIOL 1152 begins on October 21, 2016 and includes genetics, gene expression and cell and molecular biology. The lecturers of the first and second halves of BIOL 1152 cooperate in administration of the course.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ron MacKay, Department of Biology
Email: Biology@msvu.ca

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ron MacKay, Department of Biology

Email: Biography@msvu.ca

Application deadline: 6/10/2016

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and
Maturation
Course Code: BIOL 1114 01
Academic Term: Fall
Class Timetable: W 7:15 – 9:45 PM
Course Unit Value: 0.5 unit

Start Date: 9/7/2016
End Date: 12/22/2016

Qualifications:

The successful candidate will have a PhD in a life science,
experience in
the course subjects, and demonstrated competence in
teaching at the
university level.

Duties: Preparation, teaching, student consultation, grading
and marking,
distribution of student evaluation questionnaires,
involvement in student
appeals, and other duties appropriate to the
appointment.

Additional Duties:

See the description of BIOL 1114 in the MSVU
Undergraduate Academic
Calendar.

Remuneration: Remuneration is in accordance with the
Collective Agreement
between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology

Email: Biography@msvu.ca

Application deadline: 6/10/2016

Department/Faculty: Biology
Course Name: Human Reproduction, Growth and Maturation
Course Code: BIOL 1114 02
Academic Term: Winter
Class Timetable: W 7:15 – 9:45 PM
Course Unit Value: 0.5 unit

Start Date: 1/4/2017
End Date: 4/26/2017

Qualifications:
The successful candidate will have a PhD in a life science, experience in the course subjects, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:
See the description of BIOL 1114 in the MSVU

Undergraduate Academic
Calendar.

Part-Time Academic Positings: Department of Biology

Posted by Department of Biology on March 15, 2016 in Job Postings
(1)

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: March 15, 2016

APPLICATION DEADLINE: March 24, 2016

POSITION: Part-time Academic; Introductory Biology I (Biology 1020, online); May 30, to August 31, 2016

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969

WORK ASSIGNMENT: The instructor is responsible for the administration and delivery of BIOL 1020 (Introductory Biology I: Cells, Genetics, and Evolution), including content review in the form of webcasts and web conferences, assisting students on an individual basis, managing teaching assistants, invigilating tests and examinations, and submitting grades. The position reports to the Chair of the Department. For more information about BIOL1020, please visit <http://biol1020.biology.dal.ca/online/fonline.html>.

REQUIREMENTS OF POSITION: The candidate should have an MSc or equivalent academic experience in Biology, and experience in the CMS used at Dalhousie University (Brightspace) or be willing to attend training sessions prior to the start of the class. Candidates must have a strong background and interest in teaching, good communication skills, and ability to work as a team member. Additional training or experience in online learning and web technologies are assets. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university

encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

Positions: SMU Biology Department Part-Time Instructors for:

Spring 2016:

BIOL2303.1 Plant Biology (lecture and lab).

This course is an introduction to plant biology, with emphasis on angiosperm plant structure, reproduction and development, basic mechanisms of photosynthesis and respiration, plant nutrition, and growth regulation. Land plants will also be studied from an evolutionary perspective, spanning from the first appearance of

plants on land to the major groups present today.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Monday/Wednesday 9:30 am-12:30 pm. Lab: Monday/Wednesday (1:30 pm-4:30 pm). Start date: 09 May 2016. End date: 23 June 2016.

Application deadline: 18 March 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2304.1 Animal Biology (lecture and lab).

This course will introduce students to the taxonomic treatment of major animal phyla with reference to anatomy, function and ecological significance.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tuesday/Thursday 9:30 am-12:30 pm. Lab: Tuesday/Thursday (1:30 pm-4:30 pm). Start date: 09 May 2016. End date: 23 June 2016.

Application deadline: 18 March 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3

references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2324.1 Ecology (lecture and lab).

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.

Prerequisites: BIOL 1201 & BIOL 1202

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Monday/Wednesday 9:30 am-12:30 pm. Lab: Monday/Wednesday (1:30 pm-4:30 pm). Start date: 09 May 2016.

End date: 23 June 2016.

Application deadline: 18 March 2016.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Part-Time Academic Postings - Department of Biology

Posted by Biology on March 11, 2016 in Job Postings

POSTING DATE: March 11, 2015

APPLICATION DEADLINE: March 21, 2015

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible

for teaching the field and lab intensive course, BIOL 3630.03, "Field Methods in Animal Behaviour". The course will be offered in the Summer session, July 4 – July 21, 2016, Monday to Friday, approx. 0835-1625. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking assignments.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience in Animal Behaviour. Up-to-date Standard First Aid and CPR certification and a driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (or e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women,

persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: March 11, 2016
APPLICATION DEADLINE: March 21, 2016

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement, prorated to 75% of course

WORK ASSIGNMENT: The part-time academic(s) will be responsible for co-teaching the 6-credit hour, field intensive course, BIOL 3640.06, "Tropical Ecology and Biodiversity". The course will be offered in the Summer session, April 25-May 25, 2016, and will meet essentially all day every day during this period. Responsibilities of the teaching team will include all aspects of teaching the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking assignments. This course will spend 18 days in Belize, Central America during which time, along with other co-instructors, the part-time academic will be responsible for the students 24 hours a day, both en route to Belize and in Belize.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field, research experience in Ecology and/or Biodiversity, with an emphasis in one or more of the following: plants, terrestrial and/or marine animals, ecosystems and communities, and plant-animal interactions. Up-to-date Standard First Aid and

CPR certification. Preference will be given to candidates possessing a Ph.D., and/or previous experience teaching university field courses, especially in topics relevant to the course, and research experience in tropical forest, freshwater or marine ecology or biodiversity.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (or e-mail) BY THE APPLICATION DEADLINE TO:

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: March 11, 2016
APPLICATION DEADLINE: March 21, 2016

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement, prorated to 25% of course

WORK ASSIGNMENT: The part-time academic will be responsible for teaching one-quarter of the 6 credit hour, field intensive course, BIOL 3640.06, "Tropical Ecology and Biodiversity". The course will be offered in the Summer session, April 25-May 25, 2016, of which 18 days will be spent in Belize, Central America. The part-time instructor will be responsible specifically for co-teaching the Belize field part of the course during May 5-21, 2016. Responsibilities include providing lectures, leading field trips, research project supervision, and evaluation of field notebooks. The part-time academic should expect to spend considerable time before and after the official course dates in preparation for the course and marking assignments. Along with other co-instructors, the part-time academic will be responsible for the students 24 hours a day when in Belize.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field, research experience in tropical ecology, biodiversity, and conservation biology. Local knowledge about the ecology, biodiversity of plants and animals, and conservation issues in Belize. Up-to-date Standard First Aid and CPR certification. Preference will be given to candidates possessing a Ph.D. and/or previous experience teaching students in the subject matter.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive BIOL 2605.03, section 2, "Marine Life of Nova Scotia". The course will be offered in the Summer session, Aug 2-17, 2016, and will meet every day, Sunday through Saturday, approx. 0905 1655. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic will be responsible for students at all times of the day for several days while off campus at the Harrison Lewis Centre field station near Port Joli, NS. Also responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic will be responsible for driving students in vehicles rented by the university. The part-time academic should expect to spend considerable time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Up-to-date (within last 3 years) Standard First Aid and CPR certification and driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (or e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
www.dal.ca/seaside

All offers of employment as a Part-Time Academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: February 24, 2016

APPLICATION DEADLINE: March 4, 2016

POSITION: Part-time Academic; Laboratory Studies of Fishes (Biology/Marine Biology 4080); January 1, to April 30, 2017

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969

WORK ASSIGNMENT: The instructor is responsible for coordinating the class laboratory; assisting students on an individual basis; general administration of the labs (handling student issues, submitting grades, etc.); invigilating tests and examinations. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology or an equivalent combination of education and experience. Teaching experience in a laboratory setting in the related discipline would be a definite asset. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all qualified candidates who would contribute to the diversity of our community.

PART-TIME ACADEMIC POSTING
DALHOUSIE UNIVERSITY
Halifax, Nova Scotia, Canada B3H 4J1

POSTING DATE: February 24, 2016

APPLICATION DEADLINE: March 4, 2016

POSITION: Part-Time Academic; Environmental Impact Assessment (Biology/Environmental Studies 4001.03); September 1 to December 31, 2016

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,881-\$5,969

WORK ASSIGNMENT: The instructor is responsible for the class lectures. The instructor will also assist students on an individual basis, invigilate tests and examinations and mark and submit grades. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The instructor will possess a doctorate in biology and have prior, recent teaching experience in at least one of the fields of ecology or sustainability. First-time applicants to the Department of Biology must provide the names of two references.

Positions: SMU Biology Department part-time instructors for Winter 2016 (January-April):

BIOL 2304 Animal Biology (lecture and lab). Prerequisites: BIOL 1201 & BIOL 1202

This course will introduce students to the taxonomic treatment of major animal phyla with reference to anatomy, function and ecological significance.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab:

Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (1:00-2:15 pm). Lab: Tues (2:30-5:30 pm). Start date: January 05, 2016. End date: April 21, 2016.

Application deadline: October 21, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 2321 Cell Biology (lecture and lab). Prerequisites: BIOL 1201 & BIOL 1202

An introduction to the eukaryotic cell with emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum will be considered.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab

instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (11:30 am-12:45 pm). Lab: Tues (2:30-5:30 pm). Start date: January 05, 2016. End date: April 21, 2016.

Application deadline: October 21, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3020 Comparative Vertebrate Anatomy (lecture and lab).
Prerequisite: BIOL 2304

Students examine vertebrates, with consideration of structural modifications for particular life styles. A comparative and evolutionary approach will be taken in lectures. Laboratory instruction involves dissection of representative animals.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Mon/Weds (10:00-11:45 am). Lab: Mon (2:30-5:30 pm).
Start date: January 05, 2016. End date: April 21, 2016.

Application deadline: October 21, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of

employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3402 Population Genetics (lecture and lab). Prerequisites: BIOL 2307

Population genetics is the integration of mathematics with population biology, genetics, and evolution and allows researchers to quantitatively infer what is going on within and among populations based on genetic data. Students will focus on developing a basic understanding of the main principles of population genetics and their application to real-world problems.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Mon/Weds (8:30-9:45 am). Lab: Mon (2:30-5:30 pm). Start date: January 05, 2016. End date: April 21, 2016.

Application deadline: October 21, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 3423 Evolution (lecture and lab). Prerequisite: BIOL 2324

Students are exposed to evolution and the importance of evolutionary thinking in biology. Topics include evolutionary theory, how evolutionary processes have resulted in the diversity of life today, and how evolutionary thinking can inform their daily lives.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant

course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Mon/Weds (11:30 am-12:45 pm). Lab: Weds (2:30-5:30 pm). Start date: January 05, 2016. End date: April 21, 2016.

Application deadline: October 21, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

BIOL 4428 Applied Entomology (lab only). Prerequisite: BIOL 2324

Insect ecology and the relationship of insects to humans are explored. Topics may include the identification of insect pest species and their impact on human activities, morphological and behavioural modifications for specific ecological roles, population dynamics, the history and use of chemical insecticides, the use of insects as natural and biological control agents and integrated pest management.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or

laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lab: Tues (2:30-5:30 pm). Start date: January 05, 2016. End date: April 21, 2016.

Application deadline: October 21, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Department/Faculty: Biology
Course Name: Introductory Biology II
Course Code: BIOL 1153 01, 2nd half (3rd posting)
Academic Term: Winter
Class Timetable: M W F 10:30-11:20 am
Course Unit Value: 0.25 unit

Start Date: 1/5/2016
End Date: 4/27/2016

Qualifications:

The successful candidate will have a PhD in biology or a related subject and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This position is the second half of BIOL 1153 01. The lecturers of the first and second halves co-operate in defining course material and administering the course. The second half of the course is mostly concerned with botany and ecology. See the description of BIOL 1153 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: biology@msvu.ca

Application deadline: 11/16/2015

Department/Faculty: Biology

Application deadline: 8/23/2015

Department/Faculty: Biology
Course Name: Introductory Biology II (2nd half)
Course Code: BIOL*1153*01 (second posting)
Academic Term: Winter
Class Timetable: M W F 10:30-11:20 am
Course Unit Value: 0.25 unit

Start Date: 1/5/2016
End Date: 4/27/2016

Qualifications:

The successful candidate will have a PhD in biology or a related subject and demonstrated competence in teaching at the university level.
Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student

appeals, and other duties appropriate to the appointment.

Duties: Preparation, teaching, student consultation, grading and marking,
distribution of student evaluation questionnaires, involvement in student
appeals, and other duties appropriate to the
appointment.

Additional Duties:

This position is the second half of BIOL 1153 01. The lecturers of the first and second halves co-operate in defining course material and administering the course. The second half of the course is mostly concerned with botany and ecology. See the description of BIOL 1153 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology

Application deadline: 8/9/2015

Positions: SMU Biology Department part-time instructors for Fall 2015 (September-December):

BIOL 2304 Animal Biology (lecture and lab). Prerequisites: BIOL 1201 & BIOL 1202

This course will introduce students to the taxonomic treatment of major animal phyla with reference to anatomy, function and ecological significance.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (10:00 am-11:15 pm). Lab: Thurs (2:30-5:30 pm). Start date: September 09, 2015. End date: December 18, 2015.

Application deadline: July 17, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete

with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Part-Time Academic Posting: Department of Biology

Posted by Department of Biology on July 8, 2015 in Job Postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: July 8, 2015

APPLICATION DEADLINE: July 17, 2015

POSITION: Part-time Academic; Invertebrate Biology

(Biology/Marine Biology 3301); January 1, to April 30, 2016 (2nd position)

DEPARTMENT/LOCATION: Biology

PAY RATE: \$4,565.50-\$5,583.00

WORK ASSIGNMENT: The instructor is responsible for lectures,

and coordinating and delivering the laboratory component of the class; assisting students on an individual basis; general administration of the classes (handling student issues, submitting grades, etc.); invigilating tests and examinations. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology. Previous, recent teaching experience (classroom and or laboratory) in the related discipline would be a definite asset. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

Chair biochair@dal.ca
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is an Employment Equity/Affirmative Action Employer.

The University encourages applications from qualified Aboriginal peoples, people with a disability, racially visible persons and women

Department/Faculty: Biology
Course Name: Molecular Genetics
Course Code: BIOL 3372 01

Academic Term: Fall
Class Timetable: MWF 9:00am-9:50am
Course Unit Value: 0.5 unit

Start Date: 9/9/2015
End Date: 12/22/2015

Qualifications:

The successful candidate will have a PhD in a relevant area of biology, expertise in the course subject, and demonstrated competence in teaching at the university level.

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

See the description of BIOL 3372 in the MSVU Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:
Department Chair: Dr. Ronald MacKay, Dept. of Biology
Email: Biology@msvu.ca

Application deadline: 6/28/2015

Positions: SMU Biology Department part-time instructors for Fall 2015 (September-December):BIOL 2324 Ecology (lecture and lab).

Prerequisites: BIOL 1201 & BIOL 1202

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems.Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.Lecture: Mon/Weds (8:30-9:45 am). Lab: Weds (2:30-5:30 pm). Start date: September 09, 2015. End date: December 18, 2015.Application deadline: June 05, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Send application either by mail or by email to: Dr. Susan Bjornson,

Chairperson, Department of Biology, Saint Mary's University,
Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.BIOL 3308
Biostatistics (lecture and lab). Prerequisites: 9 credit hours in
2000-level BIOL

Students are introduced to the methods of graphing and analyzing quantitative data in the biological sciences with emphasis on practical applications of statistics in biology. Topics include descriptive statistics, normal and non-normal distributions, probability, correlation, regression, tests of significance such as analysis of variance, and sampling methods. Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students. Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lecture: Mon/Weds (8:30-9:45 am). Lab: Weds (2:30-5:30 pm). Start date: September 09, 2015. End date: December 18, 2015. Application deadline: June 05, 2015. How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca. BIOL 3398 Microbiology (lecture and lab). Prerequisite: BIOL 2321

This course is an introduction to the world of microorganisms, the means by which they are studied, and their role in human disease. Topics may include: the origin and discovery of microbial life, structure and function of prokaryotic cells, cell growth and development, and the role of bacteria, fungi, viruses and protozoa with respect to the development of human disease. Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students. Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lecture: Mon/Weds (11:30 am-12:45 pm). Lab: Weds (2:30-5:30 pm). Start date: September 09, 2015. End date: December 18, 2015. Application deadline: June 05, 2015. How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca. BIOL4410 Biology of Cancer (lecture and lab). Prerequisites: BIOL 3004 and 3419

Students study current models of the nature of cancer and how cancer arises in a multicellular body. Topics include the molecular mechanisms that control normal growth and development, including oncogenes, tumor suppressors, the cell cycle, cell death, and cell communication. Students explore how molecular mechanisms act inappropriately in cancer cells, and how this knowledge influences anti-cancer therapies.

Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Mon/Weds (8:30-9:45 am).
Lab: Weds (2:30-5:30 pm). Start date: September 09, 2015. End date: December 18, 2015. Application deadline: June 05, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of

employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.BIOL 4431

Herpetology (lecture only). Prerequisite: BIOL 3020

Herpetology is the study of amphibians and reptiles. Topics include ecology, natural history, form and function of amphibians and reptiles with emphasis on Nova Scotia

herpetofauna.Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction.Lecture: Mon/Weds (11:30 am-12:45 pm). Start date: September 09, 2015. End date: December 18, 2015.Application deadline: June 05, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Course Code: BIOL 202L LB

Academic Term: Fall

Class Timetable: Th 1:30pm-4:15pm Course Unit Value: 0.25 unit

Start Date: 9/9/2015

End Date: 12/22/2015

Qualifications:

The candidate must have a BSc in biology or a related discipline, at least one year of microbiology laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This is a position for a laboratory instructor. The instructor does not create the exercises or write the lab manual. The instructor works co-operatively with the lecturer, the senior lab instructor, the technician and teaching assistants. This lab may or may not be provided with a teaching assistant. For a description of the course, see BIOL 2202 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology

Email: Biology@msvu.ca Application deadline: 6/8/2015

Department/Faculty: Biology

Course Name: Laboratory for BIOL 3312 General Ecology

Course Code: BIOL 312L LA

Academic Term: Fall

Class Timetable: Th 1:30pm-4:15pm

Course Unit Value: 0.25 unit

Start Date: 9/9/2015

End Date: 12/22/2015

Qualifications:

The candidate must have a BSc in biology or a related discipline, at least one year of laboratory or field experience in ecology (post-BSc) and some relevant lab and field-teaching experience (post-BSc).

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This is a position for a laboratory instructor. The instructor does not create the exercises or write the lab manual. The instructor works co-operatively with the lecturer, the senior lab instructor, the technician and teaching assistants. This lab may or may not be provided with a teaching assistant. For a description of the course, see BIOL 3312 in the MSVU Undergraduate Academic Calendar.

WORK ASSIGNMENT: The part-time academic will be responsible
for teaching the field and lab intensive BIOL 2605.03, "Marine Life
of Nova Scotia". The course will be offered in the Summer session,
July 3-17, 2015, and will meet every day, Monday through
Saturday, approx. 0905 1655. Responsibilities include all aspects
of teaching and administering the course, including lectures, field
trips, test preparation, and evaluation of tests and reports. The

part-time academic will be responsible for students at all times of the day for several days while off campus at the Harrison Lewis Centre field station near Port Joli, NS. Also responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. In addition, the part-time academic will be responsible for driving students in vehicles rented by the university. The part-time academic should expect to spend considerable time before and after the official course dates preparing and marking.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience directly related to the topic of the course. Up-to-date (within last 2 years) Standard First Aid and CPR certification and driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter, up-to-date C.V., and evidence of teaching effectiveness (such as summary of relevant course evaluations). Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (or e-mail) BY THE APPLICATION DEADLINE TO:

Dr. Cindy Staicer , Director, SEASIDE Program, Department of Biology, Dalhousie University, Halifax, NS, B3H 4R2
<http://seaside.science.dal.ca>

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is an Employment Equity/Affirmative Action employer. The University encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons and women.

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is an Employment Equity/Affirmative Action employer. The University encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons and women.

Position: SMU Biology Department part-time instructors for Summer 2015 (May-June):BIOL2004 Cell Physiology and Metabolism (lecture and lab). Prerequisite: BIOL 1201
Students will examine basic definitions and principles of physiology at the molecular, cellular and tissue levels. Topics include the fundamentals of membrane structure and function, enzymes and enzyme kinetics, bioenergetics, signal transduction, feedback regulation, cell structure, function, and integration of neurons and skeletal muscles.Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning

environment for staff and students. Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lecture: Mon/Weds (9:30-12:30pm). Start date: May 4th, 2015. End date: June 19th, 2015.

Lab: Mon/Weds (1:30-4:30pm). Start date: May 4th, 2015. End date: June 19th, 2015. Application deadline: April 10th, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca. BIOL2324.2

Biostatistics (lecture and lab). Prerequisite: BIOL 1202

Students are introduced to the methods of graphing and analyzing quantitative data in the biological sciences with emphasis on practical applications of statistics in biology. Topics include descriptive statistics, normal and non-normal distributions, probability, correlation, regression, tests of significance such as analysis of variance, and sampling methods. Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology

Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students. Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lecture: Tues/Thurs (9:30-12:30pm). Start date: May 4th, 2015. End date: June 19th, 2015. Lab: Tues/Thurs (1:30-4:30pm). Start date: May 4th, 2015. End date: June 19th, 2015. Application deadline: April 10th, 2015. How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca. BIOL2324.2 Ecology (lecture and lab). Prerequisite: BIOL 1202

Ecology is the study of interactions and relationships among organisms and their environment such as adaptations, competition and predation. Topics include the density, diversity and distribution of organisms, population dynamics, community relationships and structure, succession, and the flow of energy and matter through ecosystems. Instructor responsibilities: The instructor is responsible for the preparation, delivery and coordination of the lecture and/or laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation

required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students. Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction. Lecture: Tues/Thurs (9:30-12:30pm). Start date: May 4th, 2015. End date: June 19th, 2015.

Lab: Tues/Thurs (1:30-4:30pm). Start date: May 4th, 2015. End date: June 19th, 2015. Application deadline: April 10th, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Position: SMU Biology Department part-time instructors for Summer 2015 (May-June):BIOL2307 Genetics (lab only).

Prerequisite: BIOL 1201

This course is an introduction to the major topics in genetics. Emphasis is placed on how genes are passed from generation to generation and how genes interact with one another. Topics include the environment that determines phenotype, the creation of genetic variation, mapping genes on chromosomes, and the practical application of this knowledge.

Instructor responsibilities: The instructor is responsible for the

preparation, delivery and coordination of the laboratory component of the course; to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise a teaching assistants (if any) helping with the lab instruction; mark biology lab assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University; and comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lab: Mon/Weds (1:30-4:30pm). Start date: May 4th, 2015. End date: June 19th, 2015.

Application deadline: March 31st, 2015.

How to apply: Individuals who have instructed before in the SMU Biology department need only send his/her updated CV (complete with education and past teaching experience). Other applicants must submit his/her updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and the names and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Send application either by mail or by email to:

Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3, susan.bjornson@smu.ca.

Positions: SMU Biology Department part-time instructors

for: Winter 2015

BIOL2004 Cell Physiology and Metabolism (labs only).
Prerequisite: BIOL 1201.

This course is designed to provide a thorough understanding of the life-sustaining physiological and biophysical concepts associated with cell and tissue processes (including those of humans). Topics covered include membrane structure and function, enzymes and enzyme kinetics, bioenergetics, signal transduction, regulation and homeostasis.

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lab section available: Mon (2:30-5:30 pm). **Start date:** 05 January 2015. **End date:** 20 April 2015.

Application deadline: 28 November 2014.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3

references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2321 Cell Biology I (lecture and lab). Prerequisite: BIOL 1201.

An introduction to the eukaryotic cell with emphasis on the chemical and genetic basis of cellular activities and the division of the cell into membrane-bound and biochemically specialized compartments. The plasma membrane, cytosol, nucleus, cytoskeleton, Golgi apparatus, mitochondrion, chloroplasts and endoplasmic reticulum will be considered.

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students;

supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (1:00-2:15 pm), Lab: Tues (2:30-5:30 pm). Start date: 05 January 2015. End date: 20 April 2015.

Application deadline: 07 November 2014.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity. Please specify all sections you wish to apply for.

Send application either by mail or by email to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL3006 Animal Ecophysiology (lecture and lab). Prerequisite: BIOL 2004.

This course addresses the diversity of physiological adaptations of vertebrates to their environment. Topics covered include the interrelationship between physiology and ecology, and the effects of environmental factors such as temperature, pH, salinity and oxygen debt on animal activity.

Instructor responsibilities: The sessional instructor is responsible for the preparation and delivery of lectures and the coordination of the laboratory component of the class, to provide biology lab instruction (such as pre-lab tutorial) to undergraduate students; supervise and advise undergraduate students performing biological lab activities; supervise Teaching Assistants (when available) helping with the lab instruction, mark biology lab assignments any complete any other form of evaluation required by the SMU Biology Department and or the University; comply with safety regulations that maintain a safe learning environment for staff and students.

Qualifications: Lecture: Minimum PhD in Biology and relevant course experience with respect to course instruction. Lab: Minimum MSc in Biology and relevant course experience with respect to course instruction.

Lecture: Tues/Thurs (1:00-2:15 pm), Lab: Fri (2:30-5:30pm). Start date: 05 January 2015. End date: 20 April 2015.

Application deadline: 07 November 2014.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send in addition a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Department/Faculty: Biology

Course Name: Laboratory for BIOL 2202 General Microbiology

Course Code: BIOL*202L*LA

Academic Term: Fall

Class Timetable: W 1:30 – 4:15 pm

Course Unit Value: .25

Start Date: 9/3/2014

End Date: 12/18/2013

Qualifications:

The candidate must have a BSc in biology or a related discipline, at least one year of microbiology laboratory experience (post-BSc) and some relevant lab-teaching experience (post-BSc)

Duties: Preparation, teaching, student consultation, grading and marking, distribution of student evaluation questionnaires, involvement in student appeals, and other duties appropriate to the appointment.

Additional Duties:

This is a position for a laboratory instructor. The instructor does not create the exercises or write the lab manual. The instructor works co-operatively with the lecturer, the senior lab instructor, the technician and teaching assistants. This lab may or may not be provided with a teaching assistant. For a description of the course, see BIOL 2202 in the MSVU Undergraduate Academic Calendar.

Remuneration: Remuneration is in accordance with the Collective Agreement

between Mount Saint Vincent University and CUPE 3912

How to apply: Send your application accompanied by curriculum vitae and

the names of three references to:

Department Chair: Dr. Ronald MacKay, Dept. of Biology

Email: Ron.MacKay@msvu.ca Application deadline: 8/27/2014

Department/Faculty: Biology

Course Name: Laboratory for BIOL 2202 General Microbiology

Course Code: BIOL*202L*LD

Academic Term: Fall

Class Timetable: Th 1:30 – 4:15 pm Course Unit Value: .25

Part-time Academic Posting: Department of Biology

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2 POSTING DATE: May 7,

2014 APPLICATION DEADLINE: May 16, 2014 POSITION: Part-time

Academic: Parasitology (Biology 3322.03); September 1, to

December 31, 2014 DEPARTMENT/LOCATION: Biology PAY RATE:

\$4,565.50-\$5,583.00 WORK ASSIGNMENT: The instructor is

responsible for lectures, and coordinating the laboratory component of the class; assisting students on an individual basis; general administration of the classes (handling student issues, submitting grades, etc.); invigilating tests and examinations. The position reports to the Chair of the Department.

REQUIREMENTS OF POSITION: The applicants will have an advanced degree in biology. Previous, recent teaching experience (classroom and or laboratory) in the related discipline would be a definite asset. First time applicants must provide the names of two referees.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:Chair
Department of Biology, Room 2078
Dalhousie University
Halifax, NS B3H 4R2

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University. Dalhousie University is an Employment Equity/Affirmative Action Employer.

The University encourages applications from qualified Aboriginal peoples, people with a disability, racially visible persons and women

Positions: SMU Biology Department Part-Time Instructors
for: Spring 2014:

BIOL2004.1 WW Cell Physiology and Metabolism (web-based lecture and lab).

Prerequisite: BIOL 1201.

This course is designed to provide a thorough understanding of the life sustaining physiological and biophysical concepts associated with cell and tissue processes (including those of humans). Topics include membrane structure and function, enzymes and enzyme kinetics, bioenergetics, signal transduction, regulation and homeostasis.

Instructor responsibilities:

- To prepare and deliver web-based lectures and laboratory components to undergraduate students

- To provide online feedback to students
- To mark both lecture and lab exams, quizzes and assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University

Qualifications:

Minimum PhD in Biology and relevant course experience with respect to course instruction

Salary:

Based on the CUPE Local 3912 Collective Agreement in effect

Lecture: Web based course (online)

Start date: May 5th, 2014. End date: June 20th, 2014.

Application deadline: March 28th, 2014.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants are required to submit their updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Please send your application by mail or email (preferred) to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2307.1 Genetics (lecture and lab). Prerequisite: BIOL 1201.

Topics include the principles and history of heredity, gene

interactions, the association of genes on eukaryotic chromosomes, autosomal and sex-linked genetic inheritance and sex determination, and statistical tests of genetic hypotheses. Laboratory studies include genetic experiments and problem solving.

Instructor responsibilities:

- To prepare and deliver lectures to undergraduate students
- To provide laboratory instruction to undergraduate students
- To supervise and advise undergraduate students performing biological lab activities
- To supervise Teaching Assistants (when available) that are hired to help with lab instruction
- To mark lecture and lab exams, quizzes, assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations and maintain a safe learning environment for staff and students

Qualifications:

Minimum PhD in Biology and relevant course experience with respect to course instruction

Salary:

Based on the CUPE Local 3912 Collective Agreement in effect

Lecture: Mon/Weds (9:30am -12:29 pm); Lab: Mon/Weds (1:30-4:30pm).

Start date: May 5th, 2014. End date: June 20th, 2014.

Application deadline: March 28th, 2014.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants are required to submit their updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and

contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Please send your application by mail or email (preferred) to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

BIOL2308 Biostatistics (lecture and labs). Prerequisite: BIOL 1202.

This course is an introduction to the methods of analyzing quantitative data in the biological sciences with emphasis on practical applications of statistics in biology and its graphical presentation. Topics include descriptive statistics, distributions, regression, correlation, analysis of variance, and sampling methods. This course is recommended for biology majors.

Instructor responsibilities:

- To prepare and deliver lectures to undergraduate students
- To provide laboratory instruction to undergraduate students
- To supervise and advise undergraduate students performing biological lab activities
- To supervise Teaching Assistants (when available) that are hired to help with lab instruction
- To mark lecture and lab exams, quizzes, assignments and/or complete any other form of evaluation required by the SMU Biology Department and/or the University
- To comply with safety regulations and maintain a safe learning environment for staff and students

Qualifications:

Minimum PhD in Biology and relevant course experience with respect to course instruction

Salary:

Based on the CUPE Local 3912 Collective Agreement in effect

Lecture: Tues/Thurs (9:30am -12:29 pm); Lab: Tues/Thurs (1:30-4:30pm).

Start date: May 5th, 2014. End date: June 20th, 2014.

Application deadline: March 28th, 2014.

How to apply: Individuals who have instructed before in the SMU Biology department need only to send an updated CV (complete with education and past teaching experience). Other applicants are required to submit their updated CV, a copy of their highest Science degree, a 500-word teaching philosophy, course evaluations from other institutions (if applicable), and name and contact information of 3 references. Although candidates of all nationalities are encouraged to apply, priority will be given to Canadian citizens and permanent residents (all applicants should clearly indicate their status as a Canadian citizen or permanent resident). Saint Mary's University is committed to the principles of employment equity.

Please send your application by mail or email (preferred) to: Dr. Susan Bjornson, Chairperson, Department of Biology, Saint Mary's University, Halifax, NS, B3H 3C3 (902) 496-8751, susan.bjornson@smu.ca.

01/20/2014 in job_postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: January 20, 2014

APPLICATION DEADLINE: January 30, 2014

POSITION: Part-time Academic

DEPARTMENT/LOCATION: Biology / Life Sciences Centre

PAY RATE: In accordance with CUPE Collective Agreement

WORK ASSIGNMENT: The part-time academic will be responsible for teaching the field and lab intensive course, BIOL 3630.03, "Field Methods in Animal Behaviour". The course will be offered in the Summer session, April 28-May 12, 2014, Monday to Saturday, approx. 0835-1625. Responsibilities include all aspects of teaching and administering the course, including lectures, field trips, test preparation, and evaluation of tests and reports. The part-time academic will also be responsible for preparing a budget in consultation with the program director, and keeping field-related expenses within the approved budget. The part-time academic should expect to spend considerable time before and after the

official course dates in preparation for the course and marking assignments.

REQUIREMENTS OF POSITION: A graduate degree in Biology or related field and research experience in Animal Behaviour. Up-to-date (within last 2 years) Standard First Aid and CPR certification and a driver's license valid in Nova Scotia. Preference will be given to candidates possessing a Ph.D. and/or previous university teaching experience in the subject of the course.

Applications should include a letter and C.V. Please contact Cindy Staicer before applying if you have any questions about the position.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING (or e-mail) BY THE APPLICATION DEADLINE TO:
