

Earth Science/Geology

Please Note:

Prospective job candidates are URGED to check with the respective department, dean, or payroll office for a more detailed description of qualifications. DO NOT apply for jobs via CUPE 3912, but directly with the contact person for each job posting. Some departments may accept applications online; others might not. It is our recommendation that you include a COMPLETE CV with every application, even if it is not requested.

Jobs are listed newest-to-oldest and expired job postings are periodically archived.

Position Available Fall 2020:

SMU Geology Dept. Part-time Instructor

Remote (online) delivery of 1 lecture section/1 lab section

GEOL/ENVS 3340 Principles of Hydrogeology

Prerequisite: GEOL 1200 and GEOL 1201

Students are introduced to the essential concepts of groundwater flow and wells. Topics include: flow through varying geologic material, water resources management, baseline groundwater quality, contamination of sub-surface environments, and an introduction to

quantitative methods. Students will learn to recognize and interpret groundwater flow and chemical data, and have an opportunity to apply this knowledge via course work, laboratory exercises and field work.

Responsibilities of Instructor:

By remote (online) format using Brightspace Virtual Classroom or another platform (to be facilitated by the employer):

- To prepare and deliver introductory geology lectures and lab instruction to undergraduate students
- To supervise teaching assistants with the lab instruction
- To prepare and deliver lecture/lab assignments, midterm and final exams
- To post and maintain a minimum of two office hours per week
- To comply with the requirements for PT faculty at SMU, the SMU academic code of conduct, and safety regulations to maintain a safe environment in the lab

Qualifications:

- The successful applicant must hold a minimum of a Master's degree in Geology or a related field
- Ideally, the successful applicant would have a track record of successful teaching hydrogeology at a post-secondary level

Salary according to the CUPE Local 3912 Collective Agreement in effect.

Required lecture section: Monday and Wednesday 1:00 p.m.-2:15 p.m.

Required lab section: Monday 2:30 p.m.-5:30 p.m.

Start date (of classes): September 9th, 2020

End date (of classes): December 9th, 2020

Final exams are to be scheduled by the Registrar between December 12th and 22nd, 2020.

How to apply:

Individuals who have already instructed for the SMU Geology Department and who are PT faculty at SMU need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send a CV (complete with education and any previous teaching experience), a copy of their highest-level science degree, a brief statement of teaching philosophy, any course evaluations from other institutions (if applicable), and the name and contact information of three references. Posted position closes to consider applications on July 1st, 2020.

Send electronic application to:

Dr. Jacob Hanley, Dept. of Geology, Saint Mary's University, Halifax, NS, B3H 3C3 at the email address:

jacob.hanley@smu.ca

Position Available Fall 2020:

SMU Geology Dept. Part-time Instructor

Remote (online) delivery of 1 lecture section

GEOL 1208 Environmental Geology: Atlantic Canada Perspective

This course examines geological principles that lie behind environmental problems facing society. Topics considered may include geological hazards such as volcanoes, earthquakes, slope instability, and pollution and waste disposal, as well as energy and mineral resources, and the quality of water. The course will include examples of environmental geology in the Atlantic Provinces.

Responsibilities of Instructor:

By remote (online) format using Brightspace Virtual Classroom or another platform (to be facilitated by the employer):

- To prepare and deliver introductory geology lectures and lab instruction to undergraduate students
- To supervise teaching assistants with the lab instruction
- To prepare and deliver lecture/lab assignments, midterm and final exams
- To post and maintain a minimum of two office hours per week
- To comply with the requirements for PT faculty at SMU, the SMU academic code of conduct, and safety regulations to maintain a safe environment in the lab

Qualifications:

- The successful applicant must hold a minimum of a Master's degree in Geology or a related field
- Ideally, the successful applicant would have a track record of successful teaching introductory level geology courses at a post-secondary level

Salary according to the CUPE Local 3912 Collective Agreement in effect.

Required lecture section: Tuesday and Thursday 11:30 a.m.-12:45 p.m.

Start date (of classes): September 9th, 2020

End date (of classes): December 9th, 2020

Final exams are to be scheduled by the Registrar between December 12th and 22nd, 2020.

How to apply:

Individuals who have already instructed for the SMU Geology Department and who are PT faculty at SMU need only to send an updated CV (complete with education and past teaching experience). jacob.hanley@smu.ca

Position Available Fall 2020:

SMU Geology Dept. Part-time Instructor

Remote (online) delivery of 1 lecture section

GEOL 1207 Environment, Radiation and Society

Radioactivity has an impact on our society and environment. Radiation given off during the process of radioactive decay is harmful, but is accompanied by the release of energy that can be harvested. The course reviews radioactive decay and explores geological sources of radiation, uranium deposits and mining, economics of nuclear power and the geological aspects of radioactive waste disposal. The course will foster an understanding of issues that surround the use of nuclear technology in our society.

Responsibilities of Instructor:

By remote (online) format using Brightspace Virtual Classroom or another platform (to be facilitated by the employer):

- To prepare and deliver introductory geology lectures and lab instruction to undergraduate students
- To supervise teaching assistants with the lab instruction

jacob.hanley@smu.ca

Position Available Fall 2020:

SMU Geology Dept. Part-time Instructor

Remote (online) delivery of 1 lecture section

GEOL 1206 Global Change

This course examines global changes in the Earth's crust, oceans, biota and atmosphere caused by natural processes and human activity. Topics covered include the reconstruction of ancient environments, some of which were dramatically changed by meteorite impacts, volcanic activity and glaciation, and the evaluation of accelerating environmental change caused by phenomena such as ozone depletion and greenhouse gas emissions.

Responsibilities of Instructor:

By remote (online) format using Brightspace Virtual Classroom or another platform (to be facilitated by the employer):

- To prepare and deliver introductory geology lectures and lab instruction to undergraduate students
- To supervise teaching assistants with the lab instruction
- To prepare and deliver lecture/lab assignments, midterm and final exams

APPLICATION DEADLINE: July 14, 2018

POSITION: Part-Time Academic for EARTH 1080.03 – Geology I (lab sections) for the fall term (September 1 – December 31) of 2018/2019. Please see academic timetable at dal.ca for current course days, times, and locations.

DEPARTMENT/LOCATION: Department of Earth Sciences, Halifax Campus

PAY RATE: In accordance with CUPE Agreement Local 3912

WORK ASSIGNMENT: The instructor will be responsible for the delivery of the lab component of the course (ERTH 1080) as directed and in collaboration with, the course instructor. Duties include: holding office hours, evaluating students in the lab component, mentoring and managing lab demonstrator/markers, and recording of marks for the course.

The lab instructor will also work closely with, and take direction from, the first year coordinator during planning, development, and delivery of the course. Detailed course description is available in the Undergraduate Calendar (dal.ca) under Earth Sciences.

REQUIREMENTS OF POSITION: Minimum MSc in Geology or Earth Sciences with broad expertise in the discipline and relevant teaching experience.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING CLEARLY INDICATING THE COURSE AND TERM BY THE APPLICATION DEADLINE TO:

Sean Hartwell

Department of Earth Sciences

Life Sciences Centre, Dalhousie University erthadm@dal.ca

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The University encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community

Position Available Fall 2018:

Saint Mary's University – Department of Geology Part-time Instructor

GEOL 3323 Paleontology: History of Life

Calendar Description:

An account of the 3800 million-year history of life on Earth,

including theories of the origin of life, and modes of preservation of organisms as fossils, and the practical use of fossils for geological age, paleogeographic, and paleoenvironment determinations. The course covers the expression of biological evolution in the fossil record, and the major patterns and crises in the history of life, such as mass extinctions. Although the main focus is on the paleontology of invertebrate macrofossils, there will be some coverage of fossil plants, vertebrates, and microfossils. (3 credit hours; prerequisites: one of GEOL1200, 1201, 1202, 1208, BIOL 1201, 1202)

Responsibilities of Instructor:

- " To prepare and deliver paleontology lecture/lab instruction to undergraduate students
- " To supervise teaching assistants who will assist with lab instruction and grading
- " To prepare, deliver and grade student lecture and lab assignments/reports, midterm and final exams
- " To comply with safety regulations in place and maintain a safe environment in the laboratory for all

Qualifications:

- " The successful applicant will hold a minimum of an M.Sc. in Geology with a proven track record in effective teaching of paleontology or related Earth Science courses at the undergraduate level

Salary according to CUPE Local 3912 Collective Agreement in effect.

Available Lecture Section: Monday and Wednesday 1:00-2:15 p.m.

Available Lab Section: Monday 2:30-5:30 p.m.

Start date (of classes): September 5th, 2018

End date (of classes): December 3rd, 2018

If required, exams to be scheduled between December 5th and 18th, 2018

How to apply:

Individuals who have already instructed in the SMU Geology Department need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send a CV (complete with education and any previous teaching experience), a copy of their highest-level science degree, a brief statement of teaching philosophy, any course evaluations from other institutions (if applicable), and the name and contact information of 3 references.

Send application to:

Dr. Jacob Hanley, Dept. of Geology, Saint Mary's University,
Halifax, NS, B3H 3C3

Electronic applications may be sent via email as a pdf file but a paper copy must follow. Electronic applications may be emailed to: jacob.hanley@smu.ca

Part-Time Academic Posting - Earth Sciences

Posted by Earth Sciences on July 5, 2017 in Job Postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2

POSTING DATE: 5 July 2017

APPLICATION DEADLINE: 30 July 2017

POSITION: Part-Time Academic for EARTH 2110.03 – Field Methods for the 2017/2018 fall term. The course runs from September 5th to December 5th, 2017, with an additional exam period. Please see academic timetable at dal.ca for current course days, times, and locations. You will be expected to mark student submissions in the exam period and to invigilate the final exam. EARTH 2110.03 Field Methods serves as our introduction to field work, geological mapping, and geological map analysis including cross section construction. Field trips are an important component of the course. Applicants should have proven experience conducting geological mapping and teaching relevant material at post-secondary institutions.

DEPARTMENT/LOCATION: Department of Earth Sciences, Halifax Campus

PAY RATE: In accordance with CUPE Agreement Local 3912

WORK ASSIGNMENT: You will work with the course instructor to

assist in the delivery of course content, primarily in coordinating the field trip logistics, taking a lead role in the development and delivery of meaningful field-based exercises, as well as assisting in the supervision of the course TAs. Detailed class description is available in the Department and in the Dalhousie Calendar (www.dal.ca).

REQUIREMENTS OF POSITION: Minimum of B.Sc. in Geology or Earth Sciences with relevant expertise and teaching experience.

IF YOU ARE INTERESTED IN THE ABOVE POSITION, PLEASE APPLY IN WRITING BY THE APPLICATION DEADLINE TO:

All offers of employment as a part-time academic are conditional upon sufficient student enrolment in the course and approval by the University.

Dalhousie University is an Employment Equity/Affirmative Action employer.

The University encourages applications from qualified Aboriginal peoples, people with a disability, racially visible persons, and women.

Position Available Fall 2016:
SMU Geology Dept. Part-time Instructor
1 Lecture/2 Lab sections

GEOL 1200 Understanding the Earth (3 hours lecture/3 hours lab per week)

Everything known about the history of the solid Earth and its transformations has been determined from studying minerals, rocks, soils, fossils, and geological structures. Students learn about Earth materials and structures, and are introduced to some of the processes (e.g., plate tectonics, rock- and ore-forming processes, metamorphism) that shape our planet. The lab component is hands-on and includes field study settings.

Responsibilities of Instructor:

- To prepare and deliver introductory geology lectures and lab instruction to undergraduate students
- To supervise teaching assistants with the lab instruction
- To prepare and deliver lecture/lab assignments, midterm and final exams
- To post and maintain a minimum of two office hours per week

- To comply with the requirements for PT faculty at SMU, the SMU academic code of conduct, and safety regulations to maintain a safe environment in the lab

Qualifications:

- The successful applicant must hold a minimum of a Master's degree in Geology or a related field
- Ideally, the successful applicant would have a track record of successful teaching in introductory level geology courses at a post-secondary level

Salary according to the CUPE Local 3912 Collective Agreement in effect.

Required lecture section: Monday and Wednesday 1:00 p.m.-2:15 p.m.

Required lab sections: Wednesday 2:30 p.m.-5:30 p.m., and Thursday 2:30 p.m.-5:30 p.m.

Start date (of classes): September 7, 2016

End date (of classes): November 30, 2016

Final exams are to be scheduled by the Registrar between December 3 and 17, 2016.

How to apply:

Individuals who have already instructed for the SMU Geology Department and who are PT faculty at SMU need only to send an updated CV (complete with education and past teaching experience). Other applicants need to send a CV (complete with education and any previous teaching experience), a copy of their highest-level science degree, a brief statement of teaching philosophy, any course evaluations from other institutions (if applicable), and the name and contact information of three references. Position closes on July 20th, 2016.

Send application to:

Dr. Pierre Jutras, Dept. of Geology, Saint Mary's University, Halifax, NS, B3H 3C3

Electronic applications may be sent via email as a pdf file, but a

paper copy must follow. Electronic applications may be emailed to: pierre.jutras@smu.ca

Part-Time Academic Posting - Earth Sciences

Posted by Earth Sciences on May 18, 2016 in Job Postings

PART-TIME ACADEMIC POSTING

DALHOUSIE UNIVERSITY

Halifax, Nova Scotia, Canada B3H 4R2
