Please Note:

Prospective job candidates are URGED to check with the respective department, dean, or payroll office for a more detailed description of qualifications. DO NOT apply for jobs via CUPE 3912, but directly with the contact person for each job posting. Some departments may accept applications online; others might not. It is our recommendation that you include a COMPLETE CV with every application, even if it is not requested.

Jobs are listed newest-to-oldest and expired job postings are periodically archived.

The Department of Geography and Environmental Studies at Saint Mary's University invites applications from part-time instructors to teach the following undergraduate courses being offered in the Winter term of the 2020-21 academic year (click the download link if you can't see the PDF doesn't load in your browser)

**GEOGRAPHY &
ENVIRONMENTAL STUDIES**
FACULTY OF ARTS

The Department of Geography and Environmental Studies at Saint Mary's University has part-time instructors to teach the following undergraduate courses during the 2020-21 academic year.

DEADLINE to submit is Friday October 16, 2020

RATE OF PAY: According to the CUPE Agreement

WINTER 2021

GEOG 1100.2A

Global Perspectives on Land and Life

REMOTE DELIVERY

06-JAN-21 – 20-APR-21

Scheduled Timeslot: Mondays and Wednesdays 2:30 – 3:45 PM

NOTE: asynchronous delivery is possible with permission of the Chair

An introduction to the world and its major regions, focusing on traits, processes, and places which give regions their distinctive character. These elements are derived from a study of physical and human geography and environmental studies materials.

Course: ACST/GEOG 3340.2

COURSE TITLE: Geography of Nova Scotia

Department: Geography, Faculty of Arts, Saint Mary's University.

Semester: Winter 2021 (January–April 2021)

Schedule: Mondays & Wednesdays, 2:30pm–3:45pm

Academic Calendar Description:

This course explores the geographical diversity of the province,

with particular emphasis on interrelationships between physical and human patterns. A section on the physical environment is followed by a discussion of settlement, cultural patterns, and economic development. Current issues of resource development, industrial reorganization, environmental management, and land use planning are addressed.

Qualifications:

Preferred applicant will have a minimum of an MA and experience teaching in the area of Geography and/or Atlantic Canada studies at the university level.

Duties:

Duties and responsibilities include course and lecture preparation, class lectures, and evaluation of student assignments.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912.

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including a cover letter, CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness).

Submissions are made as a single PDF file sent directly via email to the Chair of the Department of Geography, Dr. Jason Grek-Martin: geography@smu.ca

Application deadline: September 18th, 2020

The Department of Geography and Environmental Studies at Saint Mary's University invites applications from part-time instructors to teach the following undergraduate courses being offered in the Fall term of the 2020-21 academic year.

DEADLINE to submit is 5PM ADT on Wednesday July 29, 2020

RATE OF PAY: According to the CUPE Agreement

FALL 2020

GEOG 1100.1A

Global Perspectives on Land and Life

REMOTE DELIVERY

09-SEP-20 – 22-Dec-20

Scheduled Timeslot: Mondays and Wednesdays 10:00 – 11:15 AM

NOTE: asynchronous delivery is possible with permission of the Chair

An introduction to the world and its major regions, focusing on traits, processes, and geographical patterns which give regions their distinctive character. These elements are derived from the complex interrelationships between human activity and the environment. Regional case studies may include: Europe, monsoon Asia, sub-Saharan Africa, the Middle East, and others.

GEOG 1200.1A

People, Place & Environment

REMOTE DELIVERY

09-SEP-20 – 22-Dec-20

Scheduled Timeslot: Mondays and Wednesdays 2:30 – 3:45 PM

NOTE: asynchronous delivery is possible with permission of the Chair

This course introduces environmental geography through an integrative approach that explores how humans have impacted and been impacted by earth's physical systems. Human linkages with the atmosphere, biosphere, hydrosphere and solid earth will be explored. Emphasis will be placed on geographical problems

and interaction between humans and environment of varying scales in order to better understand the complexity of our natural world. Where appropriate, case studies will be used to highlight specific methods of geographical analysis.

GEOG 3302

The Built Environment

REMOTE DELIVERY

09-SEP-20 – 22-Dec-20

Scheduled Timeslot: Tuesdays and Thursdays 2:30 – 3:45 PM

NOTE: asynchronous delivery is possible with permission of the Chair

Students explore cities: their physical components (e.g. streets, buildings, infrastructure, green spaces), techniques for their evaluation, and theories about how they develop. Students consider how urban landscape influences culture, environment, society, and the economy.

For all of the above:

- The minimum qualification for applicants is a Master's Degree in Geography or related discipline.
- Experience teaching at the university level, in the area of the relevant course, would be an asset.
- Experience teaching in an online/remote delivery format, using features contained in a learning management system (e.g. D2L Brightspace), would also be an asset.
- Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University and the Department of Geography and Environmental Studies encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.
- Course offerings, teaching terms, days, and times are subject

to change. The University reserves the right to cancel the course due to insufficient enrolment.

- Applications are invited in the first instance from part-time faculty currently appointed to teach in the Department. For other qualified applicants, please submit a cover letter, curriculum vitae, instructor course evaluations, and the names and contact information of two referees who can speak to your teaching ability.
- Applications should be sent via email to:

Dr. Jason Grek-Martin
Department of Geography & Environmental Studies
Saint Mary's University, Halifax, NS B3H 3C3
Email: geography@smu.ca

The Department of Geography and Environmental Studies at Saint Mary's University invites applications from part-time instructors to teach the following undergraduate courses being offered in the Fall term of the 2020-21 academic year.

DEADLINE to submit is Friday July 10, 2020

RATE OF PAY: According to the CUPE Agreement

FALL 2020

GEOG 1100.1WW

Global Perspectives on Land and Life

Web-based course 09-SEP-20 – 22-Dec-20

An introduction to the world and its major regions, focusing on traits, processes, and geographical patterns which give regions their distinctive character. These elements are derived from the complex interrelationships between human activity and the environment.

Regional case studies may include: Europe, monsoon Asia, sub-Saharan Africa, the Middle East, and others.

GEOG 1200.1B**People, Place & Environment**

REMOTE DELIVERY 09-SEP-20 – 22-Dec-20

Scheduled Timeslot: Tuesdays and Thursdays 11:30 AM – 12:45 PM

NOTE: asynchronous delivery is possible with permission of the Chair

This course introduces environmental geography through an integrative approach that explores how humans have impacted and been impacted by earth's physical systems. Human linkages with the atmosphere, biosphere, hydrosphere and solid earth will be explored. Emphasis will be placed on geographical problems and interaction between humans and environment of varying scales in order to better understand the complexity of our natural world. Where appropriate, case studies will be used to highlight specific methods of geographical analysis.

GEOG 3004.1**Geography and Environmental Studies in Practice**

REMOTE DELIVERY 09-SEP-20 – 22-Dec-20

Scheduled Timeslot: Mondays and Wednesdays 11:30 AM – 12:45 PM

NOTE: asynchronous delivery is possible with permission of the Chair

Students explore how geography and environmental studies is practiced and applied beyond the classroom. This professional development course is based on the principle of experiential learning while examining how our discipline is applied in the real world. In addition to class discussions and guest lectures, 15 volunteer service learning hours throughout the term outside the classroom will be required with non-profit, for-profit, private sector or government agencies.

GEOG 3386.1/5686.1 (and GEOG 3386.1L/5686.1L)**Concepts in GIS Analysis**

REMOTE DELIVERY 09-SEP-20 – 22-Dec-20

Scheduled Timeslots: Class: Tuesdays and Thursdays 1:00 – 2:15 PM

Lab: Thursdays 2:30 – 5:29 PM

NOTE: asynchronous delivery is possible with permission of the Chair

Students focus on applied geospatial analyses using ArcGIS and associated extensions. Topics include spatial analysis and geostatistics, 3D surface modelling, visualization, network analysis, predictive modelling and multiple criteria evaluations. Examples are drawn from earth and environment science, geography, environmental studies, anthropology and business. Note that graduate students may also take this course as GEOG 5686.

For web-based courses:

- The preferred applicant will have developed the advertised course through The Studio at Saint Mary's and will have taught web-based courses entirely online at the undergraduate level.

For all of the above:

- The minimum qualification for applicants is a Master's Degree in Geography or related discipline.
- Experience teaching at the university level, in the area of the relevant course, would be an asset.
- Experience teaching in an online/remote delivery format, using features contained in a learning management system (e.g. D2L Brightspace), would also be an asset.
- Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University and the Department of Geography and Environmental Studies encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.
- Course offerings, teaching terms, days, and times are subject to change. The University reserves the right to cancel the course due to insufficient enrolment.
- Applications are invited in the first instance from part-time faculty currently appointed to teach in the Department. For

other qualified applicants, please submit a cover letter, curriculum vitae, instructor course evaluations, and the names and contact information of two referees who can speak to your teaching ability.

- Applications should be sent via email to:
Dr. Jason Grek-Martin

Winter 2020

GEOG 2343.2 (and GEOG 2343.2L)

Weather and Climate

Class

11:30 a.m. – 12:45 p.m.

Mondays and Wednesdays

08-JAN-20 – 18 APR-20

Lab

2:30 p.m. – 5:29 p.m.

Wednesdays

08-JAN-20 – 18 APR-20

Students investigate weather and climate systems on Earth across a wide range of spatial and temporal scales. Topics include: the atmosphere, energy balances, microclimates, regional weather, and global climate processes. Applied meteorology and climatology will also be covered, including adaptation and mitigation strategies for severe events.

GEOG 3311.2

Rural Geography

Class

4:00 p.m. – 5:15 p.m.

Mondays and Wednesdays

08-JAN-20 – 18 APR-20

Examines the nature of rural settlement and land use in various cultural and technological settings. Emphasis is placed on agricultural patterns, and the changing organization of the countryside in modern societies. Topics include frontier settlement; land surveys; village morphology; land abandonment; farm enlargement and fragmentation; forestry, mining, and recreational uses; commuting; and conflicts over multiple land use and scenic preservation.

For the above:

- The minimum qualification for applicants is a Master's Degree in Geography or relevant degree. Experience teaching at the University level, in the area of the relevant course, would be an asset.
- Saint Mary's University and the Department of Geography and Environmental Studies encourage applications from women and men, aboriginal peoples, visible minorities, and individuals with disabilities.

GEOG 1200.1WW

People, Place and Environment

Web-based class 08-JUL-2019 – 20-AUG-2019

This course introduces environmental geography through an integrative approach that explores how humans have impacted and been impacted by earth's physical systems. Human linkages with the atmosphere, biosphere, hydrosphere and solid earth will be explored. Emphasis will be placed on geographical problems and interaction between humans and environment of varying scales in order to better understand the complexity of our natural world. Where appropriate, case studies will be used to highlight specific methods of geographical analysis.

GEOG 3340.1

Geography of Nova Scotia

Class 1:30 pm – 4:30 pm Mondays and Wednesdays 08-JUL-2019 – 20-AUG-2019

This course explores the geographical diversity of the province, with particular emphasis on interrelationships between physical and human patterns. A section on the physical environment is followed by a discussion of settlement, cultural patterns, and economic development. Current issues of resource development, industrial reorganization, environmental management, and land use planning are addressed.

For web-based courses:

" The preferred applicant will have taught web-based courses entirely online at the undergraduate level in the social sciences.

" The preferred applicant will have experience teaching using features contained in a learning management system (e.g D2L Brightspace), setup the online course prior to the course start date, and communicate with students frequently during the course and guide them through proctoring arrangements, if applicable.

For all of the above:

" The minimum qualification for applicants is a Master's Degree in Geography or relevant degree. Experience teaching at the University level, in the area of the relevant course, would be an asset.

" Saint Mary's University and the Department of Geography and Environmental Studies encourage applications from women and men, aboriginal peoples, visible minorities, and individuals with disabilities.

" Course offering, teaching term, days, and times are subject to change. The University reserves the right to cancel the course if insufficient enrolment.

" Applications are invited in the first instance from part-time faculty on the Department's Precedence List. For other qualified applicants, please send a covering letter, curriculum vitae, instructor course evaluations, transcripts and the names and contact information of two referees who can speak to the teaching ability of the applicant.

" Applications should be sent via email to:

Dr. Danika van Proosdij, Chair
Department of Geography and Environmental Studies

CUPE 3912 Job Postings for Part-Time Instructors in the FALL Term
of the
2018-2019 Academic Year

Course: GEOG 2333.1, Biogeography (Lecture and Lab)
Department: Department of Geography and Environmental

Studies, Faculty of Arts, Saint Mary's University

Semester: Fall 2018 (September 05, 2018 – December 17, 2018)

Schedule: Lecture 2:30-3:29 PM Monday & Wednesday

Lab 3:30-5:25 PM Wednesday

Course Description: The objectives of the course are to give students an overview of biogeography, to introduce and illustrate major concepts, and to prepare students for more advanced courses in this subject. The topics in this course cover biophysical sciences and the processes underlying many human, social and economic aspects of our environment and natural resources.

Prerequisite information:

Available from Academic Calendar, online

<http://www.smu.ca/academics/academic-calendar.html>

Qualifications:

The minimum qualifications of applicants are a Master's Degree in Geography or Environmental Studies or a related field. Experience teaching at the University level, in the area of the relevant course, would be an asset.

Duties:

Duties and responsibilities include course preparation and in-class teaching, course-related student advising, and preparation and evaluation of all student assessments.

Remuneration:

Remuneration is in accordance with the Collective Agreement between Saint Mary's University and CUPE 3912

How to Apply:

Applications are invited in the first instance from part-time faculty colleagues on the Saint Mary's precedence list. Applicants who currently hold a part-time teaching appointment at Saint Mary's University should submit a cover letter and a C.V. Applicants who do not currently hold a part-time teaching appointment at Saint Mary's University should submit a complete application (including

a CV, proof of academic credentials, name and contact information of three referees, and any evidence of teaching effectiveness). Submissions are made as a single PDF file sent directly via email to: Dr. Danika van Proosdij, Chair, Department of Geography and Environmental Studies, Saint Mary's University using the address below.

geography@smu.ca

Application deadline: Thursday, June 28, 2018

Saint Mary's University hires on the basis of merit and is committed to the principles of employment equity. Saint Mary's University encourages applications from qualified women, visible minorities, Aboriginal people, and people with disabilities. Preference will be given to Canadian citizens and permanent residents of Canada.

People, Place and Environment

Class 9:30 am – 12:29 pm Monday and Wednesday 08-MAY-2017 – 22-JUN-2017

This course introduces environmental geography through an integrative approach that explores how humans have impacted and been impacted by earth's physical systems. Human linkages with the atmosphere, biosphere, hydrosphere and solid earth will be explored. Emphasis will be placed on geographical problems and interaction between humans and environment of varying scales in order to better understand the complexity of our natural world. Where appropriate, case studies will be used to highlight specific methods of geographical analysis.

GEOG 2310.1

Geography of Canada

Class 1:30 pm – 4:29 pm Tuesday and Thursday 08-MAY-2017 – 22-JUN-2017

This course provides an overview of the physical, social, cultural and economic geographical characteristics of Canada taken as a whole and within its distinct regions. How humans affect and are affected by the physical environment will be a recurrent theme.

Session 2 July 5 – August 23, 2017

GEOG 1100.1

Global Perspectives of Land and Life

Class 9:30 am – 12:29 pm Tuesdays and Thursdays 05-JUL-2017 – 23-AUG-2017

An introduction to the world and its major regions, focusing on traits, processes, and geographical patterns which give regions their distinctive character. These elements are derived from the complex interrelationships between human activity and the environment. Regional case studies may include: Europe,

monsoon Asia, subSaharan Africa, the Middle East, and others.

GEOG 1200.1 WW
(ON-LINE COURSE)

Class Web 05-JUL-2017 – 23-AUG-2017

This course introduces environmental geography through an integrative approach that explores how humans have impacted and been impacted by earth's physical systems. Human linkages with the atmosphere, biosphere, hydrosphere and solid earth will be explored. Emphasis will be placed on geographical problems and interaction between humans and environment of varying scales in order to better understand the complexity of our natural world. Where appropriate, case studies will be used to highlight specific methods of geographical analysis.

For all of the above:

- The minimum qualification for applicants is a Master's Degree in Geography or relevant degree. Experience teaching at the University level, in the area of the relevant course, would be an asset. (and experience in web course delivery if applicable).
- Saint Mary's University and the Department of Geography and Environmental Studies encourage applications from women and men, aboriginal peoples, visible minorities, and individuals with disabilities.
- Course offering, teaching term, days, and times are subject to change. The University reserves the right to cancel the course if insufficient enrolment.
- Applications are invited in the first instance from part-time faculty on the Department's Precedence List. For other qualified applicants, please send a covering letter, curriculum vitae, instructor course evaluations, transcripts and the names and contact information of two referees who can speak to the teaching ability of the applicant.
- Applications should be sent via email to:

Dr. Danika van Proosdij, Chair
 Department of Geography and Environmental Studies
 Saint Mary's University, Halifax, NS B3H 3C3
 Email: <mailto:geography@smu.ca>
 Telephone: 902-420-5737 Fax: 902 496-8213

The Department of Geography and Environmental Studies at Saint Mary's University is seeking part-time instructors to teach the following undergraduate course being offered in the 2017 academic year.

DEADLINE to submit is Monday, November 7, 2016

RATE OF PAY: According to the CUPE Agreement (0.5 credit).

WINTER 2017

GEOG 3380.2
Climate: Impact, Vulnerability and Adaptation

Class 11:30 am - 12:45 pm Tuesdays and Thursdays 04-JAN-2017 -

Students examine global, regional and sectoral impacts of climate change and the role of biophysical and socio-economic factors influencing risk and vulnerability. Students explore how communities can increase resilience through adaptation using regional and local data.

For all of the above:

- The minimum qualification for applicants is a Master's Degree in Ge

Fundamentals of Physical Geography

GEOG 2100.1 (and .1L)

Sept. 9 – Dec. 18, 2015

Mondays and Wednesdays, 8:50am – 9:50am

Lab: Wednesdays, 2:30pm – 4:30pm

This course explains fundamental patterns and phenomena in physical geography by investigating the underlying causes and processes with a quantitative approach. The concepts of systems, equilibrium, stability, and feedback will be incorporated as principal themes. Major topics include: effects of Earth-Sun cycles, radiation and water budgets, atmospheric and oceanic circulation systems, weather and climate controls, and principles of landscape and landform development.

Fundamentals of Physical Geography

GEOG 2100.2 (and .2L)

Jan. 5 – Apr. 21, 2016

Mondays, 5:30pm – 7:20pm

Lab: Wednesdays, 5:30pm – 7:20pm

This course explains fundamental patterns and phenomena in physical geography by investigating the underlying causes and processes with a quantitative approach. The concepts of systems, equilibrium, stability, and feedback will be incorporated as principal themes. Major topics include: effects of Earth-Sun cycles, radiation and water budgets, atmospheric and oceanic circulation systems, weather and climate controls, and principles of landscape and landform development.

Principles of Cartography

GEOG 2336.2 (and .2LA, .2LB)

Jan.5 – Apr. 21, 2016

Mondays and Wednesday, 11:30am – 12:30pm

LabA: Mondays, 2:30-4:20pm

LabB: Wednesdays, 2:30-4:20pm

An introduction to the design, compilation, and construction of maps as a medium for communication and research. Topics include the history of map making, cartographic critique, generalization, lettering, symbolization, and colour. The major types of thematic mapping (proportional symbols, isopleths and

choropleths) are studied. Geographic Information Systems (GIS) are introduced.

Concepts in Geographical Information Systems (GIS)

GEOG 3386.1 (and .1L) (Cross-listed as 5686)

Sept. 9 – Dec. 18, 2015

Mondays and Wednesdays, 10am – 11am

Lab: Fridays, 11:30am – 1:30pm

Students are introduced to the fundamentals, concepts and components of GIS using an experiential learning framework, merging theory and practice. Topics include spatial analysis and geostatistics, 3D surface modelling, network analysis and multiple criteria evaluations. Examples will be drawn from earth and environment science, geography, environmental studies, anthropology and business.

Geography of Urban Transportation

GEOG 4452.2 (Cross-listed as 5652)

Jan. 5 – Apr. 21, 2016

Mondays and Wednesdays, 2:30pm – 3:45pm

This course focuses on patterns and processes of movement within cities. Topics for consideration include: the role of transportation in shaping urban form, transportation problems in cities today, the urban transportation planning process, patterns of public transit and automobile use, environmental impacts of urban transportation, the communications-transportation trade-off.

For all of the above:

- The minimum qualification for applicants is a Master's Degree in Geography or relevant degree. Experience teaching at the University level, in the area of the relevant course, would be an asset (and experience in web course delivery if applicable).
- Saint Mary's University and the Department of Geography and Environmental Studies encourage applications from women and men, aboriginal peoples, visible minorities, and individuals with disabilities.

- Course offering, teaching term, days, and times are subject to change. The University reserves the right to cancel the course if insufficient enrolment.
- Applications are invited in the first instance from part-time faculty on the Department's Precedence List. For other qualified applicants, please send a covering letter, curriculum vitae, instructor course evaluations and the names and contact information of two referees who can speak to the teaching ability of the applicant.
